### Statewide Present Law Adjustments

#### SWPL - 1 - Personal Services

The budget includes an increase of $140,094 in FY 2020 and an increase of $198,095 in FY 2021 to annualize various personal services costs including FY 2019 statewide pay plan, benefit rate adjustments, longevity adjustments related to incumbents in each position at the time of the snapshot, and vacancy savings.

#### SWPL - 2 - Fixed Costs

The request includes an increase of $218,427 in FY 2020 and an increase of $185,401 in FY 2021 to provide the funding required in the budget to pay fixed costs assessed by other agencies within state government for the services they provide. Examples of fixed costs include liability and property insurance, warrant writer, payroll processing, and others. The rates charged for these services are approved in a separate portion of the budget.

#### SWPL - 3 - Inflation Deflation

This change package includes an increase of $25 in FY 2020 and an increase of $31 in FY 2021 to reflect budgetary changes generated from the application of inflation to specific expenditure accounts. Affected accounts include those associated with the statewide Motor Pool operated by the Department of Transportation.
PL - 4 - Present Law Adjustment -
This proposal includes changes from the 2019 budget starting point for the following:
1. Increase for contracted services to produce, broadcast, and stream the legislature during session and the interim (general fund). The branch is working to formalize ongoing maintenance and replacement costs previously expended from other funds (IT Reserve Statutory Appropriation);
2. Increased information technology costs related to replacement of declining hardware and software. The proposal includes contracted services for network support and programming related to the LAWS II system (general fund) and the restoration of 3.17% budget reductions from the 2017 legislative special session; and
3. Other operating increases to restore training, supplies and materials, and miscellaneous services to support the Legislative Branch, which were reduced during the 2017 regular session and November 2017 special session.

NP - 5 - FTE Request Net Admin, IT BA -
The Legislative Services Division is requesting 2.00 FTE. The request is for one network administrator and one business analyst. Increased workload in the information technology area, due to large IT projects, increased complexity of the IT environment, and growing business requirements, has created the need for two additional full-time positions for the division.

NP - 6 - Bill Draft Editor Project OTO/BIEN -
The Bill Draft Editor Project is a continuation and final phase of the "Session Systems Replacement Project" that has been undertaken beginning in 2013. When completed, SSR implements a system that will provide enterprise content management of the fully versioned MCA datastore and system functionality for bill and amendment drafting and chamber business processes. This project includes development of the bill draft editor solution, system integration testing of the bill draft editor solution, training, user acceptance testing, and production that will go-live in the summer of 2020 for the 2021 Legislative Session. $500,000 general fund is requested as a biennial, one-time-only appropriation to fund the project.

NP - 7 - Chamber Project OTO/BIEN -
The Chamber Project is a continuation and final phase of the "Session Systems Replacement Project" that has been undertaken beginning in 2013. When completed, SSR implements a system that will provide enterprise content management of the fully versioned MCA datastore and system functionality for bill and amendment drafting and chamber business processes. Funding of $1.2 million general fund for detail design and integration, testing and delivery of automation of the chamber processes, including agenda process for second and third reading, the journal, committee reports and minutes, and the amendments of bills on second reading is requested as a one-time-only, biennial appropriation.

**NP - 8 - Legislator Portal Project OTO/BIEN**

The Legislative Portal Project is a continuation and final phase of the "Session Systems Replacement Project" that has been undertaken beginning in 2013. When completed, SSR implements a system that will provide enterprise content management of the fully versioned MCA datastore and system functionality for bill and amendment drafting and chamber business processes. This project provides integration with the legislative website and individual legislator pages that eventually will allow legislators to access and receive notices regarding their bill drafts, introduction of bills, floor agendas, and committee and other notices. Funding of $300,000 general fund as a one-time-only appropriation in FY 2021 is requested.

**NP - 9 - Digital Vote Boards OTO/BIEN**

Ugrades to the hardware and software for the House and Senate vote systems have been completed. The voting displays, which are still analog technology, need to be upgraded to digital displays in order to complete the vote system replacement project. The legislature requests $1,000,000 one-time-only funding for the 2021 biennium for the project.

- Conducting performance audits to focus on agency or program operations and management, efficiency and effectiveness in delivery of government services, or public policy outcomes and impacts.
- Conducting financial-compliance audits of each state agency at least every two years to assess adherence to accounting principles, compliance with material laws, and internal controls.
- Conducting information systems audits to address the design, operation and maintenance of technology systems and processes, and providing assurances on the quality and reliability of system data.
- Maintaining the state's Hotline for reporting fraud, waste and abuse in state government and conducting work to verify allegations and substantiate reported cases.
- Reporting violations of penal statutes, instances of misfeasance, malfeasance, or nonfeasence, and any instances of apparent criminal violations of the state code of ethics discovered in an audit.
- Auditing records of entities under contract with the state.
- Assisting the Legislature, its committees, and its members by providing information related to the fiscal affairs of state government.

The Legislative Auditor is responsible for managing the division, and appointing and defining the duties of the division's employees. The Legislative Auditor is appointed by the Legislative Audit Committee, a twelve-member, bipartisan, bicameral permanent joint committee of the legislature.

NP - 4 - Consolidate Board of Visitors and Mental Health Ombudsman -
The budget includes continuation of a budget reduction included in SB 261 passed by the 2017 Legislature. The bill reduced the budget for the budgetary program that includes both the Mental Disabilities Board of Visitors and the Mental Health Ombudsman. This request combines the positions of the Executive Director of the Mental Disabilities Board of Visitors and the Mental Health Ombudsman and eliminates 1.00 FTE. This request is contingent on legislation that would allow for the combination of the two positions as they are currently distinct from each other in statute.
Mission Statement - To monitor and to enforce in a fair and impartial manner: campaign practices and campaign finance disclosure; lobbying disclosure; business interest disclosure of statewide and state district candidates, elected state officials, and state department directors; ethical standards of conduct for legislators, public officers, and state employees; and to investigate legitimate complaints that arise concerning any of the above.

Statutory Authority - Title 13, Chapter 37 and Title 2, Chapter 2, MCA.
### Program Description
The Commissioner of Political Practices is provided for in 13-37-102, MCA, which was enacted in 1975 as part of a campaign finance and practice law reform package, with duties and responsibilities set forth in Title 13, Chapter 37, part 1, MCA. Additional responsibilities for the office were created through passage of an initiative in 1980 which provided for both lobbying disclosure and disclosure of business interests of elected officials. In 1995 the legislature enacted the code of ethics and assigned to the commissioner the responsibility for administering ethical standards of conduct for legislators, public officers, and state employees.

Affected accounts include those associated with the statewide Motor Pool operated by the Department of Transportation.

-----------------------------New Proposals-----------------------------

NP - 3201 - Legal Counsel -
This request reestablishes 1.00 FTE legal counsel for the Commissioner of Political Practices. The 2017 legislature restricted general fund personal services for an attorney position as OTO with language stating that if the person appointed as Commissioner of Political Practices was an attorney, the appropriation was void. The appointed Commissioner is not an attorney, therefore this position and ongoing funding is necessary.
Mission Statement - The Office of the Montana State Auditor will diligently advocate for consumers while working to empower Montanans with more insurance options and timely information. It will endeavor to protect consumers from fraudulent and illegal practices, and to improve Montana’s economy by ensuring the securities and insurance industries can operate in a fair and efficient regulatory environment. They are committed to serving all Montanans in a caring, professional, and ethical manner as they perform the duties of our office.

PL - 7 - Securities Contract Examinations -
The CSI conducts routine and for-cause examinations of broker-dealer branch offices, investment advisory firms, and issuers to ensure compliance with the Montana Securities Act and to resolve deficiencies and determine the need for further investigation. The securities examination section of the CSI employs only two individuals with the requisite knowledge and skills to conduct examinations. Therefore, to fulfill its obligation to protect Montana investors, the CSI also uses an independent contractor to perform routine examinations. This request is for $30,000 in each of year of the biennium for a total of $60,000. The contract payments will be paid from state special revenue, and per 30-10-210(1), MCA, the cost of these examinations is borne by the firms and issuers being examined and will be reimbursed to the agency.
Mission Statement - The quality of life for all Montanans is better because we excel at public service and effective administration of the tax and liquor laws. We do this by ensuring that revenues intended by the legislature are collected to serve Montanans; advancing equity and integrity in taxation; providing innovative and respectful service; protecting the public health and safety; and achieving efficiency in liquor administration; and improving public understanding of Montana’s revenue system.

Statutory Authority - Titles 2, 15, 16, 39, MCA.

Language - The Liquor Control Division requests the following language be included in HB 2:

"Liquor Control Division proprietary funds necessary to maintain adequate inventories, pay freight costs, and transfer profits and taxes to appropriate accounts are appropriated from the liquor enterprise fund to the department in the amounts not to exceed $154.5 million in each year of the 2021 biennium."

Present Law Adjustments

PL - 201 - Governor-Elect Appropriation - OTO

Montana Statute (2-15-221, MCA) requires the department to provide funding to a governor-elect and his or her staff for the period between the general election and the inauguration in the event of a change in office as a result of the 2020 general election. The department requests $50,000 in FY 2021 as a one-time-only appropriation.
Program Description - The State Financial Services Division performs many centralized functions and administers state and federal programs to state agencies, local government entities, and Montana citizens and businesses. The division consists of three bureaus – Statewide Accounting, State Procurement, SABHRS FSTB - and includes Local Government Services and the State Social Security Administrator.

The Statewide Accounting Bureau (SAB) prepares and publishes the state’s annual comprehensive financial report (CAFR) and maintains a statewide accounting structure with related policies and procedures to allow all branches of government to meet their individual reporting needs. The Daily Operations Unit includes both the Treasury and Warrant Writer services. The Treasury responsibilities include central banking functions and maintaining accountability of all money and securities belonging to or held in trust by the state. The Warrant Writer services include management of the state payment processes and state vendor file, and issuance of 1099 miscellaneous and 1042 forms. The bureau also serves as the process owner of the SABHRS financial modules and assists state agencies in operating the state's accounting system. The Department of Administration (DOA) and the Board of Investments (BOI) work jointly to effectively manage the State of Montana’s cash. The Treasury within DOA reconciles the state’s banking activity/movement of cash, manages bank contracts, and provides support to BOI and other agencies.

Local Government Services (LGS) is now part of the Statewide Accounting Bureau. LGS works with local governments (counties, cities, towns, school districts, and special districts) to support uniform financial accountability and to assist the local governments in complying with their statutory, financial, and budgetary reporting requirements, including provisions of the Montana Single Audit Act. LGS receives and makes the local government financial, budget, and audit reports available to the public. The State Social Security Administrator - also a part of the Statewide Accounting Bureau - is responsible for administering Section 218 of the Social Security Act by providing education and outreach and insuring proper application of Social Security coverage to all state and local government employees.

The Financial Services Technology Bureau (FSTB) provides system analysis, support, configuration, development, and maintenance of the state’s enterprise accounting and budgeting systems. The bureau also manages system architecture and provides database administration for the entire Statewide Accounting Budgeting & Human Resources System (SABHRS) application. FSTB partners with the Statewide Accounting Bureau, Governor’s Office of Budget and Program Planning, Legislative Fiscal Division, and the State Human Resources Division to gather business requirements and develop application strategies. In addition, FSTB supports the Montana Acquisition and Contracting System (eMACS).

The State Procurement Bureau (SPB) provides professional procurement services to all state agencies for the acquisition of supplies and services. State Procurement advocates for compliance with all state statutes and procurement requirements, establishes statewide contracts for commonly used goods and services, manages the state’s fuel and procurement card programs, and offers procurement/contract management training to state agencies. In addition, SPB promotes compliance of the Montana Procurement Act (Title 18, Chapter 4, MCA) and is the business process owner of the Montana Acquisition and Contracting System (eMACS). State Procurement strives for transparent, cost effective contracts that assist the state in receiving the maximum value for taxpayer dollars.
The budget includes adjustments in FY 2020 and FY 2021 to annualize various personal services costs including FY 2019 statewide pay plan, benefit rate adjustments, longevity adjustments related to incumbents in each position at the time of the snapshot, and vacancy savings.

The request includes adjustments in FY 2020 and FY 2021 to provide the funding required in the budget to pay for fixed costs assessed by other agencies within state government for the services they provide. Examples of fixed costs include liability and property insurance, legislative audit, warrant writer, payroll processing, and others. The rates charged for these services are approved in a separate portion of the budget.
SWPL - 3 - Inflation Deflation -
This change package includes adjustments in FY 2020 and FY 2021 to reflect budgetary changes generated from the application of inflation/deflation to specific expenditure accounts. Affected accounts include those associated with statewide Motor Pool operated by the Department of Transportation.

A-61
**Program Description** - The Architecture and Engineering Division manages remodeling and construction of state buildings. Its functions include planning new projects and remodeling projects; advertising, bidding, and awarding construction contracts; administering contracts with architects, engineers, and contractors; disbursing building construction payments; and providing design services for small projects. The division also formulates a long-range building plan for legislative consideration each session. This division operates under the authority found in Titles 17 and 18, MCA, as well as other state mandates.

PL - 5106 - OTBD Administrative Costs Adjustments
This change package augments the 2021 biennium appropriation request for the Office of Tourism to match the amount of anticipated private funds to be received as a result of more public/private partnerships and enhancements to the Governor's Conference on Tourism and Recreation. Adjustments are also made for computer equipment, 2021 biennium lease increases, and for indirect costs charged by the Director's Office for services provided to the division.

New Proposals

NP - 5101 - OTBD Primary Business Sector Training
The Primary Sector Workforce Training Grant (WTG) is codified in Title 39, Chapter 11, MCA. The WTG is a state-funded program that provides grant funds to new and existing primary sector Montana businesses for training their employees in newly created full-time and part-time jobs. The Montana Department of Commerce recognizes how critical this program is to economic growth and requests that this program be included as part of the department’s base funding. The program has been funded in HB 2 with general funds, except for the 2019 Biennium where the funding was transferred from the Big Sky Economic Development Trust Fund Program as an one-time-only item. The Big Sky Economic Development Trust Fund no longer has a fund balance that can sustain a transfer.

NP - 5102 - OTBD Indian Country Economic Development
This proposal would fund the Indian Country Economic Development (ICED) programs at $875,000 for each year of the biennium and includes an existing one-time-only FTE. The ICED program has been OTO, general funded for 14 years, starting in fiscal year 2006. The program was established to fulfill statutory obligations denoted in 90-1-132, MCA, and provides small equity grants, business advisor host organization funds, and tribal government business planning resources. Funding is distributed to the eight tribal nations and tribal member businesses.

NP - 5103 - OTBD Census 2020 Marketing BIEN/OTO
The department is requesting $100,000 in FY 2020 to fund the 2020 Decennial Census. Having an accurate population count has financial, economic, and political ramifications, and Montana must prepare for this important process. The 2020 count of Montana residents will be done by the Census Bureau with fewer employees and $13 billion less in funding than 2010, relying for the first time on internet responses and other technology to make up for reduced staff and dollars. To accomplish the count within the budget, the Census Bureau must “replace as much of the mail phase of the 2020 Census as possible by offering the public an on-line response.” Proposed costs include promotions and printing, contracted services, workshops and meetings, travel, communications, and office supplies.
NP - 5104 - OTBD Montana Indian Language Preservation BIEN -

The Montana Indian Language Preservation Program was established to address the rapid language loss of Native American languages in the state and to preserve this rich aspect of Montana and tribal heritage. Each tribal nation develops, and makes accessible, curricula, audio and video recordings, and reference materials to assist in preserving and perpetuating Indian languages. One-time-only (OTO) funding to launch the program was established in 2013 at $2 million. Subsequent biennia were OTO funded at $1.5 million (2015) and $750,000 (2017).

This change package requests $750,000 for each year of the biennium to continue to fund the Montana Indian Language Preservation program.

NP - 5105 - OTBD Eliminate Big Sky Trust Fund Appropriations -

During the 2017 regular and special sessions, the legislature funded/ transferred $7.32 million in numerous items from the fund balance contained in the Big Sky Trust Fund (BSTF). Most, but not all, of these items were designated as one-time-only (OTO). Because the excess fund balance in the BSTF will be exhausted by June 30, 2019, the department proposes to eliminate the 2021 biennium base level funding for the following three items:

- Food and Agriculture Development Centers - $105,000 for each year of the biennium
- Outdoor Recreation - $200,000 for each year of the biennium
- Employment Barriers - $100,000 for each year of the biennium
Program Description - The Community Development Division strengthens Montana communities by supporting sustainable development of our charming, vibrant towns. Our staff are experts in the growth and development of communities to promote affordable housing, improved public infrastructure, economic resilience, and downtown revitalization through comprehensive planning and locally determined goals and objectives.

Alongside our community, local, and tribal government partners, we are building vibrant places where people want to live and visit.

The missions of the Community Development Division (CDD) are set forth in Title 90, Chapters 1 and 6, MCA. CDD is funded primarily through federal funds and state-special revenue account grant programs, with additional direct appropriations provided in HB 2. CDD administers six programs directly:

- Community Development Block Grant Program (CDBG);
- Community Technical Assistance Program (CTAP);
- HOME Investment Partnerships Program (HOME);
- Montana Main Street Program;
- Housing Trust Fund;
- Broadband for Montana Schools Program; and
- Treasure State Endowment Program (TSEP).

Two citizen boards, appointed by the governor, are attached to CDD for administrative purposes. The division provides office facilities, staff, and administrative support for the:

- Montana Coal Board; and
- Montana Hard Rock Mining Impact Board.

PL - 6002 - CDD Administrative Costs Adjustments -
Section 90-6-207, MCA, requires the department to biennially designate eligible entities for Coal Board funds. This change package allows the department to hire consulting services to perform the designation study for proper allocation of Coal Board grants. This change package also adjusts board member per diem (Hard Rock) for the 2021 biennium. Additional meetings are anticipated to address impacts from a proposed copper mining project near White Sulphur Springs, Montana. The department also requests $100,000 be moved to a separate reserve account restricted appropriation per the justification below.

Hard Rock Mining Impact Account Reserve - As provided in 90-6-304(2), MCA, the board is required to maintain a reserve not to exceed $100,000. Expenditures may be made from the reserve only under the conditions and for the purposes set forth in statute. There were no conditions or purposes meeting the statutory criteria in FY 2018, and thus no expenditures were made from the account. The reserve account is funded through an allocation from the hard rock mining impact trust account. As provided in 90-6-331, MCA, the funds remaining in the hard rock mining impact trust account after allocations are transferred to the county for which the funds have been held in deposit, as described above.

Adjustments are also made for equipment replacement, rent increases, and indirect costs paid to the Director's Office for support services provided to the division.

NP - 6001 - CDD Federal Housing Trust Fund Appropriation -
The National Housing Trust Fund program (HTF) is a formula-funded grant program of the U. S. Department of Housing and Urban Development (HUD). This program was authorized under the Housing and Economic Recovery Act of 2008, Section 1131, Public Law 110-289. The state of Montana will receive an annual allocation of $3 million to award to local governments and nonprofit organizations to preserve or construct housing infrastructure. The Department of Commerce will administer the program using $300,000 for administrative costs (HUD limits administrative costs to no more than 10%) and $2,700,000 for activity costs with related project administration. Families earning less than 30% of the area median income benefit from HTF housing units through access to housing units. As with other HUD funded programs, funds are available with the execution of the grant agreements.
Program Description - The Housing Division includes the U.S. Department of Housing and Urban Development (HUD) Section 8 Housing programs and the Board of Housing and its programs. Together, these programs are known as Montana Housing.

Montana Housing supports the development of affordable and vibrant communities for all Montanans. By building affordable and vibrant communities where people want to live, we’re also creating places people want to visit. Strengthening our communities is at the core of Montana’s economic challenge and opportunity. To support a growing economy, hardworking Montanans need an affordable place to live, and a vibrant Main Street to experience.

Housing Division responsibilities are mandated primarily in Title 2, Chapter 15; Title 90, Chapter 1, and Chapter 6, MCA; 24 CFR 5, 792, 813, 887, 982, and 984; and the Governor’s Executive Order 27-81.

-----------------------------Statewide Present Law Adjustments-----------------------------------

**SWPL - 1 - Personal Services**

The budget includes an increase of $108,284 in FY 2020 and an increase of $107,937 in FY 2021 to annualize various personal services costs which include statewide pay plan adjustments and increases to state share costs for health insurance passed by the 2017 Legislature, benefit rate adjustments, longevity adjustments related to incumbents in each position at the time of the snapshot, and vacancy savings.
PL - 7801 - BOHR Administrative Costs Adjustments

This change package reduces the Board of Horse Racing's 2021 biennium personal services budget to current estimates for the 2021 biennium. The Board of Horse Racing currently is contracting for its executive secretary, which is funded through an operating expense category. This change package simply removes the 2021 biennium personal services funding for the position without removing the board's executive secretary position.
Program Description - The Director’s Office provides overall leadership, communication, and management support to the Department of Commerce staff, programs, bureaus, divisions and administratively attached boards. The office provides executive, administrative, legal, and policy direction, along with offering problem-solving guidance. The office keeps abreast of department-related issues and acts in a public relations and informational capacity to ensure the public is informed of the important services provided by the department. The office works closely with economic and community development organizations, businesses, communities, governmental entities, elected officials, and the public to diversify and expand the state’s economic base. The office also acts as the liaison with private business, local governments, administratively attached boards, public and private interest groups, the Legislature, Indian tribes, individuals, other governmental agencies, and the Governor’s Office.

The Director’s Office also provides effective and efficient internal support to Department of Commerce staff, programs, bureaus, divisions and administratively attached boards in a positive, customer service-oriented manner. Services are provided by the Offices of Accounting and Budget, Legal Affairs, Human Resources, Information Technology, and Communications.

Every division, bureau, and program in the agency uses the support services in the Director’s Office in some capacity. Staff act as the administrative contacts for the agency, and the "central services" aspect enhances the overall effectiveness and efficiency of the agency by standardizing business processes and employing best practices in as many areas of the agency as possible while keeping the costs to supported programs as low as possible.

The Director's Office analyzes, with department managers, the statutory, administrative, and programmatic objectives of their programs to develop performance measures, where appropriate, that maximize the benefits of the services provided to the citizens of Montana while minimizing the resources required achieving those objectives.

The Director’s Office responsibilities are mandated primarily in Title 2, Chapter 15 and Title 90, Chapter 1, MCA.

Montana Council on Developmental Disabilities (MCDD):

The Montana Council on Developmental Disabilities is a citizen-based advocacy group. Its members, appointed by the Governor, work to provide increased independence, integration and productivity for persons with developmental disabilities.

The Council administers federal funds in three major areas; 1) assistance in the provision of comprehensive services to persons with developmental disabilities; 2) assistance to the state in appropriate planning activities; and 3) contracting with public and private agencies to establish model programs, demonstrate innovative habilitation techniques and to train professional and paraprofessional personnel in providing services to persons with developmental disabilities.

MCDD responsibilities are mandated primarily in Title 53, Chapter 20, MCA.

Program Description - The Workforce Services Division (WSD) is charged with three primary goals to ensure that workforce development in Montana remains strong and growing. WSD works to help Montana employers understand the labor market and have a skilled and ready workforce that meets their needs, today and tomorrow. WSD also helps Montana workers understand the job market and have access to skills development opportunities and job search assistance services. WSD provides businesses, job seekers, workforce and economic development partners, educators, students, and the general public a place to go to learn about the workforce, as well as a way to connect with each other to keep it growing. WSD operates through four bureaus. The Job Service Operations Bureau coordinates and guides the delivery of workforce development services to communities through a network of 16 Job Service Centers across the state. The Strategic Initiatives and Workforce Programs Bureau operates the Registered Apprenticeship & Training program, the Jobs for Montana Graduates program, as well as the Work Opportunity Tax Credit (WOTC) program. The Research and Analysis Bureau works in partnership with the US Department of Labor to provide labor market information that is used at the national and state level by businesses, policy makers, and educators. The bureau also provides k–adult career resources for use by educators, students, workforce development agencies, and job seekers. The Division Management Services Bureau performs fiscal and policy oversight operations for the division. Also housed within WSD are the Incumbent Worker Training Program and State Workforce Innovation Board (SWIB).
