## **Local Government**

Identified issues	Possible solutions
Geographic Discrepancy/Unique and Diverse Localities	Look at non levy revenues and revenues from high value properties
Need for increased voter education on ballots	
Out of state homeowners lessor demand on local services	
There is an increased demand for local services commensurate with population growth Predictability (of revenues for local gov't?)	
Public relations improvement. Disconnect between taxbill & services. Need transparency	Other ways to evaluate total tax bill - ie- taxes per population
Reform the cap design. Doesn't allow flexibility  Need for smoothing. The ½ rate of inflation cap drives increases in fees, voted levies  Review 15-10-420, MCA	Eliminate 15-10-420 and move to a new cap or no cap See SB 511 from 2023
Special District reform. No limit on fees  Spending limitation is important. le - fees and assessments  Temptation to create districts w/ "fees and/or assessments" rather than taxes	Incorporate fees into cap
Review HB 587	changes to 95 mill growth % going back to local govs
Levy fatigue. No sunset. Should there be a 2 year cycle	Limit levies to a dollar amount plus inflation growth
Voted levies are a significant issue. Timing and turnout of bond elections.	Require bond/levy elections to general election date Look at increasing voter turnout requirements for passage
Analyze"leaks" in system creates shifts. le - ag classification, TIF's Need for TIF reform	Review ag classification - in process by DOR work group Cap on TIFs, reset TIF base periodically, redefine blight
Review property tax assistance programs	
PTAP, Veterans, Land value, natural disaster reduction and elderly renter credit
