#### NP - 104 - Technology Modernization Purchase and Maint -

Montana Fish, Wildlife and Parks (FWP) is requesting funding of \$600,000 in FY 2022 and \$145,000 in FY 2023, for the procurement and annual maintenance of a facilities management system that would automate manual tasks. The agency's staff, partners, customers, and constituents have an increased expectation that they can access information and data instantly from any type of device. The lack of a centralized system, makes this expectation unrealistic. The facilities management processes could be automated to reduce the possibility of errors, ensure reporting deadlines are met, improve accessibility of information, and maximize staff time. This request also includes additional funding that will allow FWP to continue utilizing the SmartCop System in conjunction with DOJ.

#### NP - 109 - Cybersecurity Program -

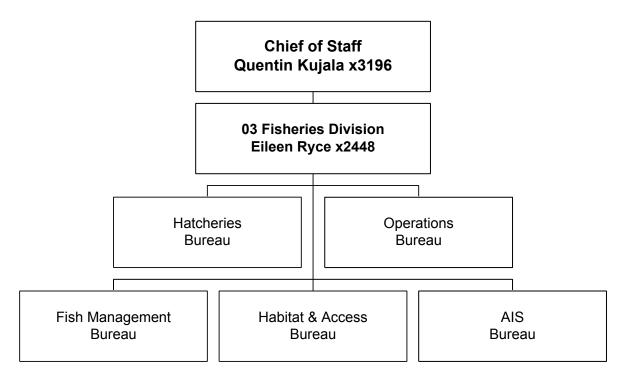

FWP is seeking necessary funding, \$103,875 pe year, to address Cybersecurity threats. The addition of a dedicated person (contracted or modified FTE) to have attention solely focused on intrusion detection/prevention and vulnerability/risk assessment, to continually monitor technology resources, and analyze the environment for security threats is a necessary enhancement to the agency security position. This person would contribute to the department's ability to meet the state's security expectations for the implementation of current and new cybersecurity tools/standards and support ongoing cyber security educational efforts for agency staff.

#### NP - 115 - Administrative Support -

The Technology Services Division (TSD) is requesting funding, \$56.364 each year, for a contracted or modified FTE to provide shared administrative support for both TSD and the Administration Division. In order to ensure compliance with State law, procurement policies, and MITA, TSD completes all technology purchases for the agency. TSD is responsible for the department's monthly cell phone bills. The agency currently has over 550 mobile devices with cellular service. These bills must be reviewed each month to account for the correct project number is charged for the service. An administrative assistant would also assist with travel planning, meeting prep, and office supply management.

**Fisheries Division - 03** 

**Program Description** - The Fisheries Division is responsible for preserving and perpetuating aquatic species and their ecosystems and for meeting public demand for fishing opportunities and aquatic wildlife stewardship. The division formulates and implements policies and programs that emphasize management for wild fish populations and the protection and restoration of habitat necessary to maintain these populations. The program:

- Operates a hatchery program to stock lakes and reservoirs where natural reproduction is limited
- Regulates angler harvests
- Monitors fish populations
- Provides adequate public access

#### NP - 306 - Statewide Fisheries Management -

A biennial OTO request of \$70,000 in FY 2022 is requested to evaluate the risks of fish movement within the state and to mitigate risks of importing fish from out of state, movement of fish in-state (bait), and mitigate AIS and illegal fish introductions. The assessment would identify weak areas and recommend tools, mechanisms, and limitations of potential actions. This risk assessment is the first step in addressing this statewide issue. \$40,000 per year, ongoing, is requested to complete field/laboratory needs for the state water pollution program. \$100,000 per year, ongoing, is requested for creel surveys and analysis of fisheries data that is collected by field staff.

### **Enforcement Division - 04**

**Program Description** - The Law Enforcement Division is responsible for ensuring compliance with laws and regulations pertaining to the protection and preservation of game animals, fur-bearing animals, fish, game birds, and other protected wildlife species. The division engages in complex wildlife criminal investigations aimed at unlawful wildlife trafficking and the unlawful exploitation of fish and wildlife. It also enforces the laws and regulations relative to lands or waters under agency jurisdiction and authority of the department such as state parks, fishing access sites, and wildlife management areas, as well as those laws and regulations pertaining to outfitters/guides, boating, snowmobiles, and off-highway vehicle safety and registration. Other duties include block management area administration and patrols, stream access enforcement, commercial wildlife permitting, hunter education, license vendor contacts, game damage response, urban wildlife activities, and assisting other law enforcement agencies as requested.

#### PL - 403 - Operations Increase -

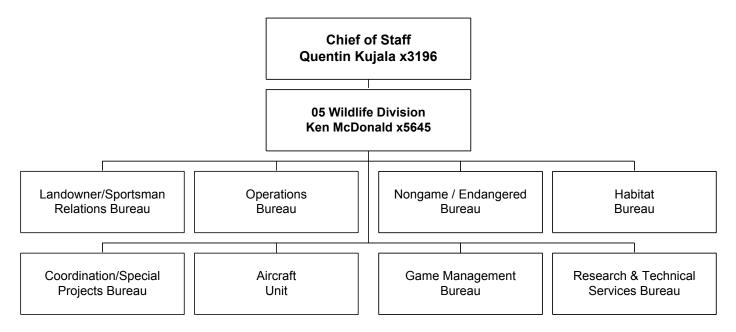

This operations increase of \$150,000 per year is needed for an additional modifed 0.50 FTE to combine with a base position for a fulltime administrative assistance position, ongoing training costs for attendance at the Montana Law Enforcement Academy, vehicle/vessel maintenance and fuel costs, and increases in ammunition used for firearms training and qualifications and operational costs incurred for conducting large scale fish and wildlife and license fraud investigations. Additionally, increased funding for the TIPMONT program will allow for increased public education and outreach about fish and wildlife conservation and enforcement across the state. Also, the Enforcement Division will transition to a permanent Enforcement canine program.

#### PL - 410 - Instructor Compensation -

The FWP Enforcement Division requests funds to fullfill law enforcement training and recertifications required by statute, rule and policy. Certain wardens have attained instructor designation in specific disciplines and provide that training routinely across the state. The warden collective bargaining agreement holds that instructors are compensated for attaining instructor status and providing training. This adjustment, of \$23,025/ per year. would allow the agency to adequately budget for and provide the required compensation.

**Program Description** - The Wildlife Division is responsible for the conservation and management of Montana's 600+ birds, mammals, reptiles, and amphibians and their habitat for public benefit. Activities related to the Wildlife Division include program coordination and planning, monitoring the status of wildlife and habitats, conserving and enhancing wildlife habitat, and providing opportunity for public enjoyment of wildlife through hunting, trapping, and viewing. The division manages animals legislatively categorized as big game, nongame wildlife, migratory game birds, upland game, furbearers, and threatened and endangered species. Responsibilities within the Wildlife Division fall into four major themes: management, habitat, access, and wildlife conflict.

#### SWPL - 3 - Inflation Deflation -

The request includes a reduction of \$108,195 in FY 2022 and \$67,855 in FY 2023 to provide the funding required in the budget to pay fixed costs assessed by other agencies within state government for the services they provide. Examples of fixed cost include liability and property insurance, legislative audit, warrant writer, payroll processing and others. The rates charged for these services are approved in a separate portion of the budget.

#### PL - 501 - Wildlife Disease Surveillance and Response (CWD) -

Chronic Wasting Disease (CWD) was recently discovered in several parts of the state, including in mule deer, white tail deer, elk, and moose. It is a disease that can impact game populations and may affect human health. This request for \$758,816 per year, would provide the capacity and funding to accomplish surveillance, monitoring, and carcass testing, including modified staff, to help hunters collect samples and to cover the cost of the testing.

#### PL - 505 - Grizzly Bear Management -

This proposed increase of \$617,591 in FY 2022 and \$567,591 in FY 2023 would increase FWP's capacity to address grizzly bear conflict in Kalispell, Missoula, Choteau, and the Bitterrroot where bear expansion is occurring, and would stabilize monitoring commitments. The request also includes operations for staff, including funds for supplies such as electric fencing to alleviate conflicts, collars for monitoring, and additional culvert traps for capturing bears.

#### PL - 511 - WMA Maintenance -

FWP has developed maintenance standards for Wildlife Management Areas (WMAs) to ensure good neighbor relations, effective weed management, preserved or restored habitats, and functional infrastructure. The cost and workload to meet these standards has increased over the past 15 years as has the cost of supplies, materials, and labor.Further, the total number of acres to manage have increased; and the number of people using the WMAs and the reasons for doing so have increased. To bring some properties up to standards and to continue to effectively meet these standards on FWP Wildlife Management Areas, additional resources are needed. This request of \$361,627 per year, will provide additional resources to enable the department to take care of the lands it is responsible for.

#### PL - 519 - Restore Wolf Program -

FWP is required by statute (87-5-132, MCA) to collar wolves and is required to spend at least \$500,000 on wolf management (87-1-625, MCA). Collaring information is helpful for locating wolf packs involved in livestock depredation, and also helps FWP with necessary population monitoring. Until the 2019 legislative session, the staff to implement the wolf program has been modified. The 2019 legislature approved 2.50 FTE, ongoing, for the wolf program, and designated 2.50. FTE as one-time-only. This proposal would restore the 2.50 FTE and associated operating expenses that were designated as one-time-only. This will allow FWP to maintain the wolf program that has resulted in a managed, delisted populaton and maintain state management of wolves. This request is for \$419,409 in FY 2022 and \$419,542 in FY 2023.

#### NP - 522 - CWD Management in Urban Areas -

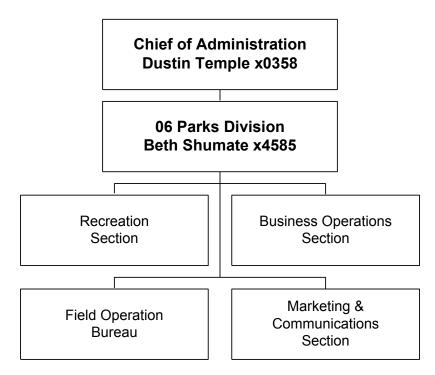

Chronic Wasting Disease (CWD) has been found in multiple locations in Montana, including in and around the community of Libby where there were high concentrations of deer in the city. Concentrations of deer leads to comingling and increased potential for spread of CWD and higher prevalence rates. FWP's recently approved CWD plan calls for maintaining prevalence of CWD in deer, where it exists, below 5%. For comparison, the prevalence rate of Libby deer was 13% in 2019. This request would provide funding of \$68,663 per year for CWD sample collection and deer management in urban areas with high concentrations of deer. It would also add capacity to help facilitate testing of deer at the urban interface (e.g., Missoula) as an "early warning system". These would be symptomatic deer, roadkill animals, and deer taken in hunting districts that adjoin urban areas.

#### NP - 523 - Long Term Federal Contract Authority -

This request will increase federal long term (LT) authority by \$750,000 in each year of the biennium and align with multiple long term federal contracts the Wildlife Division receives annually. The division regularly requests budget amendment authority from the Governor's Budget Office on contracts such as Forest Legacy Administration, Forest Service and other federal sources. These contracts are anticipated to continue long into the future and the division is requesting permanent LT authority which would continue to fund modified FTE and operations.

Parks Division - 06

**Program Description** - Montana State Parks is responsible for conserving the scenic, historic, archaeological, scientific, and recreational resources of the state, and for providing for their use and enjoyment. The program includes 55 park units and 12 affiliated lands. The division also manages Recreational Trails, OHV, Snowmobile, and LWCF grants which provide support for recreation on local, state, and federal lands for use by all citizens.

#### SWPL - 3 - Inflation Deflation -

This change package includes a reduction of \$32,833 in FY 2022 and \$20,592 in FY 2023 to reflect budgetary changes generated from the application of inflation to specific expenditure accounts. Affected accounts include those associated with the statewide Motor Pool operated by the Department of Transportation.

#### PL - 608 - Statewide Parks Operation Increase -

This base operations adjustment of \$200,000 per year, will ensure planned projects, ongoing operations, and unplanned emergency needs are budgeted for at sustainable levels. State Park budgets are currently challenged with addressing the increase of visitors and the expansion of the outdoor season. This request is based on the need to keep pace with costs associated with ongoing operational requirements to ensure maximum efficiency and a consistent high-quality visitor experience.

#### PL - 613 - Park Ranger Enhancement -

This request of \$74,336 per yerar, will address the day to day operational functions necessary to provide historic and natural resource site protection and provide coverage for extended park seasons. This will fulfill front line customer support at parks and visitor centers statewide. Modified staff will be placed at parks with high use to cover visitor needs to keep campsites and latrines clean, and provide a quality experience for visitors.

#### PL - 616 - Refunding of state water-based park system -

The state water-based park systems are heavily utilized by hunter and anglers. This request will support those activities with the funding designated for them by refunding Parks Earned Revenue with General License. This request will increase funding by \$582,555 in the General License account and reduce Parks Earned Revenue funding by a like amount for a net zero budgetary change.

#### PL - 618 - Smith River Corridor Enhancement -

This funding request of \$200,000 for the biennium will be used for operational expenses in the Smith River Corridor. Available funds would be focused on: 1) fund a basin-wide assessment of ways to improve water quality, aquatic habitat, and recreational opportunities; 2) repair or remove river ford; 3) construct riparian fencing; and 4) protect existing water rights through compliance investigations.

#### PL - 621 - Snowmobile Trail Groomers - Bien -

This request of \$300,000/ per year, would reinstate and increase the biennial appropriation to purchase snowmobile trail groomers at the level authorized by the 2019 Legislature. The funding was fully spent in FY 2020 and not captured as part of the 2021 base. The increased request allows the Snowmobile program to provide 2 groomers to the overall groomer fleet and replace some of the failing equipment that currently exists. With the limited amount of funding available, the program refurbishes used groomers and tries to extend the lifespan as long as possible. There is an established replacement schedule to ensure safety and reliability in equipment operation while grooming over 4,000 miles of snowmobile trails each year.

#### NP - 602 - Milltown State Park -

Milltown State Park is currently funded through a grant from Natural Resource Damage Program (NRDP). State Parks is transitioning from NRDP grant funding used to support park operations. To maintain the existing level of staffing needed to operate the park, this proposal requests base funding of \$129,257 in FY 2022 and \$129,334 in FY 2023, for 1.89 FTE: 0.59 FTE Park Manager, 0.55 Park Ranger, and 0.75 Groundskeeper.

#### PL - 817 - MT WILD/MT Wildlife Center FTE & Ops -

This operations request of \$162,000 per year, is for a modified or contracted 1.00 FTE Admin Assist at MT WILD and a modified 0.50 FTE Biology Tech at the adjacent MT Wildlife Rehabilitation Center and associated operations. The fulltime Admin Assistant would provide front desk coverage, coordination of school children groups, and scheduling meeting rooms. The Biology Tech for the Wildlife Center would provide coverage on the evenings and weekends, schedule volunteers for the center coverage and wildlife feeding, and assist the manager in wildlife rehabilitation and other duties. Additional operations are needed to cover educational supplies, printing, maintenance at MT WILD, and travel, utilities, and veterinarion supplies at the Wildlife Rehabilitation center.

**Program Description** - The Administration Division manages the administrative branch of the department. This branch is responsible for providing consistent, quality direction to the division and regions throughout the agency. The division is centralized to provide services including accounting, fiscal management and budget preparation, procurement and property management, managing federal aid, maintaining internal control procedures, selling hunting, fishing and other recreational licenses and maintaining biological and GIS applications.

#### NP - 907 - Marketing Program -

The department has increased its advertising presence to promote the branding effort, communicate important information to the public, and generate more public participation on critical issues. Historically, the department has relied on press releases to serve this effort, but targeted communication efforts require a multi-platform approach, including advertising and marketing. This would require a modified or contracted 1.00 FTE for a marketing position at headquarters to coordinate and promote the department's initiatives and efforts statewide. This request is for \$295,800 each year of the biennium.

Water Quality Division - 20

**Program Description** - The Water Quality Division protects public health and water quality in the state of Montana. This is accomplished through the financing and technical assistance provided for community water and wastewater systems; the development of water quality restoration plans; managing a State-wide monitoring network; subdivision review; monitoring compliance of public water systems; and water discharge permitting. The division achieves this through coordination with the public and regulated community by proposing rules, drafting policy, and developing water quality standards.

#### SWPL - 1 - Personal Services -

The executive requests adjustments to the present law personal services budget. This request has been broken into the following categories, and further detail is shown in the agency summary:

- Formula based
- Personal services management decisions
- · Modifications made to the personal services budget in the 2021 biennium

| FY 2023 \$0               | \$68,655           |

#### SWPL - 2 - Fixed Costs -

The executive requests adjustments to provide the funding required in the proposed budget to pay increases in fixed costs assessed by other agencies within state government for the services they provide. Examples include: warrant writer, motor pool, etc. The rates charged for these services are approved in the section of the budget that provides the services.

#### NP - 30 - CALA Reimbursement -

Orphan Share funds are allocated to reimburse the orphan share of remediation costs at sites for which a Controlled Allocation of Liability Act (CALA) Settlement Agreement has been reached. These funds are disbursed as claims are submitted in the order of submittal. MCA §75-10-743(3) and §75-10-743(6)(b) originally part of the statute in 1997.

#### NP - 9 - Orphan Share Expanded Use Rst/Bien -

This request for \$350,000 per year in state special spending authority to continue the cleanup of contaminated properties across the state and provide on-going base claims authority for Controlled Allocation of Liability Act (CALA). Two sessions ago SB 96 was passed allowing the department to work on sites where there was no readily apparent responsible party to conduct the necessary work. The use of the orphan share account that session and last session has allowed the department to take remedial actions to address risks to human health and/or the environment from hazardous substance sites, and additional funds are requested to continue with this effort. Claims authority is necessary any time a company remediates a site and there is an "orphan share" responsibility. Without base authority for these kinds of claims, the department cannot pay the companies until the department can request the authority in the next legislative session such as with the current request for Joslyn Tailings.

#### NP - 97 - Adjust specific SSR appropriations -

This request reduces state special revenue authority for two funds with insufficient revenue projections to support base appropriation.

### Air Energy & Mining Division - 50

**Program Description** - The Air, Energy and Mining Division (AEMD) permits and regulates environmentally-protective and productive operations in air, hard rock mining, opencut mining, and coal mining industries according to program statutory authority. The permitting and regulatory work includes extensive coordination with other programs to develop environmental review documents that comply with the Montana Environmental Policy Act (MEPA), including environmental assessments and environmental impact statements. AEMD includes the State Energy Office, or Energy Bureau, which promotes and improves Montanan's access to energy efficiency and alternative energy sources while improving the state's energy security by offering financing mechanisms, technical assistance, and education for public and private entities.

#### NP - 100 - Refinancing Natural Resources Operations Account -

The Natural Resources Operations account revenue is generated from oil and natural gas production and metalliferous mines taxes. These revenue streams no longer are sufficient to fund the agency operations this fund is intended to support. This proposal is related to proposed legislation that would reallocate Natural Resources Operations account revenue to the general fund, thus the fund switch from the account to the general fund.

### PL - 108 - Software licensing and maintenance -

This request is for \$140,000 in state special revenue funds for both FY 2022 and FY 2023. There is a need for additional licensing for the API Hub and I-Broker projects and to support the Data Governance program.

**Program Description** - The Construction Program is responsible for construction project planning and development from the time a project is included in the long-range work plan through the actual construction of the project. Program responsibilities include such tasks as project designs, right-of-way acquisitions, issuing contract bids, awarding contracts, and administering construction contracts. Contract administration is responsible for the documentation, inspection, and testing of highway construction projects from the time the contract is awarded to a private contractor until the project is completed and the work is approved. The program also provides traffic improvement and educational programs to promote public safety, health, and welfare.

### NP - 206 - Utility Permitting Administration System (UPAS) -

This request includes an increase of \$150,383 in FY 2022 and \$144,581 in FY 2023 in state special revenue and 2.00 FTE. MDT is in the process of implementing a new system in the Utility Section that will require electronic permitting and as-built of utilities requesting to be located in state's rights-of-way. The electronic permitting module will allow utility owners to apply for and receive approval within three days, compared to two to four weeks with the paper process. The as-built requirement will allow MDT to manage which utilities are located where within the state's rights-of-way. With more and more utilities requesting occupancy in the state's rights-of-way, these tools will allow MDT to better manage the state's rights-of-way.

### NP - 210 - Broadband Infrastructure Deployment -

This request includes an increase of \$102,958 in FY 2022 and \$99,229 in FY 2023 in state and federal special revenue funds and 1.00 FTE. The Federal Register Vol. 85, No. 157 dated 8/13/20 contained a Notice of Proposed Rulemaking (NPRM) requiring Broadband Infrastructure Deployment from the MOBILE NOW Act. This requires State DOT's to have a broadband utility coordinator responsible for facilitating infrastructure Right-of-way (ROW) efforts within the state. This FTE will assist with establishing a registration process for broadband infrastructure, and working with broadband infrastructure entities regarding installation of broadband utilities in the ROW on applicable Federal-aid highway projects.

# Maintenance Program - 03

**Program Description** - The Maintenance Program is responsible for the repair, maintenance, and preservation of approximately 25,000 lane miles of roadways. Activities include but are not limited to: winter maintenance, reactive and preventive pavement preservation, pavement marking, signing, roadway striping, noxious weed control, traveler information, disaster and emergency services coordination, MDT's long-range building program and state funded construction program, communications program, quality control, and any other necessary roadway and roadside repairs and maintenance. The Maintenance program is authorized by 2-15-2501(1), MCA; Title 60, MCA, and 23 USC 116.

# Motor Carrier Services Program - 22

**Program Description** - The Motor Carrier Services Program enforces state and federal commercial motor carrier laws including laws on vehicle size and weight, insurance, licensing, dyed fuel, and vehicle and driver safety. The Commercial Motor Vehicle Bureau registers interstate fleet vehicles, issues commercial vehicle licenses and oversize/overweight permits, and collects and distributes fees and taxes. The Enforcement Bureau operates a statewide weigh station and mobile enforcement program and assigns uniformed officers to inspect commercial vehicles for compliance with state and federal safety, registration, fuel, insurance, and size/weight laws. The Motor Carrier Safety Assistance Program (MCSAP) conducts commercial motor carrier safety compliance reviews and safety audits to ensure commercial vehicles, drivers, and motor carriers are compliant with state safety laws and federal regulations by conducting vehicle and driver inspections and motor carrier compliance reviews and safety audits.

The request includes and increase of \$8,236 in FY 2022 and \$8,316 FY 2023 for an increase of operational expenses for equipment usage and associated rate changes from MDT's Equipment Program. This request would impact a combination of state special and federal special revenues.

**Aeronautics Program - 40** 

**Program Description** - The Aeronautics Program: 1) facilitates the operation and infrastructure of airports and airways, both public and private, throughout Montana; 2) provides mechanisms for funding airport and aviation related projects throughout the state; 3) registers aircraft and pilots in accordance with Montana laws and regulations; 4) fosters, promotes, and supervises aviation and aviation safety through educational efforts and programs; and 5) coordinates and supervises aerial search and rescue operations. The program administers a loan and grant program to airport sponsors to fund airport improvement projects. The Aeronautics Board approves loan and grant requests.

The program serves as a liaison between the State of Montana and various other entities including the U.S. Department of Transportation, the Federal Aviation Administration (FAA), US Forest Service, other federal and state entities, and commercial airlines in order to assure the retention and continuation of airline service to Montana's rural communities. The program is also responsible for operation of the commercial service airport just north of West Yellowstone, MT and for 15 other state-owned or operated airports.

#### SWPL - 2 - Fixed Costs -

The request includes a reduction of funding to provide the funding required in the budget to pay fixed costs assessed by other agencies within state government for the services they provide. Examples of fixed costs include liability and property insurance, legislative audit, warrant writer, payroll processing, SITSD charges, and others. The rates charged for these services are approved in a separate portion of the budget.

#### PL - 4001 - Taxiway & Apron Pavement Maintenance -

The request is \$321,580 for federal funds in FY 2023 for pavement maintenance of the apron and taxiway at the West Yellowstone Airport. The airport has one taxiway to serve as the only means to transition aircraft between the runway and the terminal environment (apron). These improvements will assist the airport in maintaining compliance with FAA mandated requirements and assure the viability of future aviation operations at the airport. The project will consist of the pavement maintenance to include filling of cracked asphalt (as necessary), sealing the asphalt surfaces, repainting the asphalt surfaces, and incidentals associated with this work.

### PL - 4002 - WYS Runway Reconstruction -

The request is \$5,512,800 federal funds in FY 2022 to provide for the design and construction associated with runway rehabilitation and associated improvements at the West Yellowstone Airport. The airport has one runway pavement surface to serve the flying public. These improvements will assist the airport in maintaining compliance with FAA mandated requirements and assure the viability of future aviation operations at the airport.

### PL - 4003 - Pavement Condition Index -

The request is for \$230,000 (\$23,000 in aeronautic state special revenue and \$207,000 federal funds) in FY 2022 for the PCI program which is an asphalt study done every three years at federally funded airports to get a snapshot of the current asphalt conditions. This snapshot is used by the airport sponsor for long-term capital improvement planning.

### PL - 4005 - Snow Removal Equipment - Yellowstone Airport -

The request is \$918,800 of federal funds in FY 2022 to provide design/acquisition of Snow Removal Equipment (SRE) for the West Yellowstone Airport. 14 CFR Part 139 requires commercial service airports to comply with snow removal operations. Currently the airport has one multi-use SRE. The acquisition of additional SRE will ensure FAA compliance and federal mandates to keep the airport open and operational. Snow removal operational efficiency will be enhanced.

#### PL - 4006 - Federal Aid Projects at Lincoln Airport -

The request is \$625,500 of federal funds in FY 2022 for the installation of an Instrument Approach Procedure (IAP) to enhance the safety of some night operations and enable equipped aircraft to land in reduced visibility conditions. Installation of an Automated Weather Observation Station (AWOS) is required to increase the safety of airport operations and improve the efficiency of the Instrument Approach Procedure (IAP) by broadcasting the current airport weather. Acquisition of a purpose-built snowplow will enable airport personnel to efficiently maintain the airport during winter weather conditions.

### PL - 4008 - West Yellowstone Airport Master Plan Study -

The request is \$436,430 of federal funds in FY 2022 to provide an Airport Master Plan at West Yellowstone Airport. The 2020 Coronavirus Aid, Relief, and Economic Security (CARES) Act has allocated funds to the Yellowstone Airport and it is opportune to advance the Airport Master Plan already identified in the airport's Capital Improvement Plan (CIP). This project will consist of an overall evaluation of the current state of the airport as well as identifying future forecasted needs. This document will aide in the overall planning for 10 plus years. The FAA requires a Master Plan in order to receive future federal funding.

# **Rail Transit and Planning Program - 50**

**Program Description** - The Rail, Transit, and Planning Program provides: 1) a continuous statewide multimodal transportation planning process used to allocate highway program resources to ensure highway system performance goals are maintained and federal-aid highway and transit grant eligibility is maintained within the federal surface transportation programs; 2) an inventory of transportation infrastructure for the allocation of state fuel taxes to local governments; 3) support for the state's comprehensive statewide highway safety plan including technical analysis, performance tracking, and coordination with multiple administrative agencies and jurisdictions; 4) the point of contact for MDT for major developers seeking access onto the state's highway system; 5) mapping functions to aid in the publication of the state tourist map and geo-spatial infrastructure inventories; 6) transportation planning and programming assistance to metropolitan and urban areas; 7) administration and implementation of safety programs that help reduce traffic deaths, injuries, and property losses resulting from traffic crashes; 8) administration and implementation of environmental services that assure environmental compliance with all applicable laws, rules, regulations, policies, orders, and agreements; and 9) responses to legislative or regulatory actions necessitating representation before courts, congressional hearings, the US Department of Transportation, the Surface Transportation Board, and others. The planning function addresses system areas that include buses for transit systems, street and highway improvements, railroad track rehabilitation, and considerations for non-motorized improvements.

#### PL - 5008 - TransADE Program Increase -

The request includes \$246,323 in FY 2022 and FY 2023 for Transportation Assistance for the Disabled and Elderly (TransADE) program (MCA 7-14-112) which provides operating/matching funds to local transit providers throughout Montana for the purpose of providing public transportation to the elderly and disabled. Montana currently has 39 transit systems that receive this funding to provide expanded services to the elderly and disabled. An increase in the 2023 biennium is due to increased allocation as the source for this program come from a statutory appropriation.

### NP - 5001 - FAST Act Reauthorization Adjustment -

The request includes \$170,697 in FY 2022 and \$335,430 in FY 2023 for an increase to federal and state special revenue to fund personal services, operating costs, and equipment costs for 2.00 FTE in FY 2022 and 4.00 FTE in FY 2023 due to more extensive statutory requirements for transportation planning and programming under the next federal surface transportation law. The Senate Environment & Public Works Committee unanimously passed its reauthorization bill (ATIA) out of committee that includes increased funding and new planning and funding programs in the areas of vehicle and pedestrian safety, resiliency, congestion relief, alternative fueling infrastructure, transit, freight and wildlife. Additional planning requirements, program management, project solicitation and nomination, financial tracking, performance assessment, and reporting for each program is necessary to ensure MT receives and benefits from these funding programs

### NP - 5002 - Environmental Science Specialist FTE -

The request includes \$97,338 in FY 2022 and \$94,207 in FY 2023 for 1.00 FTE to account for current and projected workload increases within the Environmental Services Bureau of the Rail, Transit & Planning Division. Workload on current staff has increased and is expected to continue to increase at a higher rate due to changing environmental regulatory requirements under the US Threatened and Endangered Species Act, Clean Water Act including Municipal Separate Storm Sewer Systems (MS4), and the MT Greater Sage Grouse Stewardship Act. Other increasing demands include Rest Area advanced wastewater systems, environmental review of public submittals, wildlife and transportation issues and new project delivery mechanisms. The projected workload is expected to increase at a greater rate for the 2023 biennium. Use of consultants during the biennium will also be increased to address the additional workload.

# **Centralized Services Program - 01**

## 01 Centralized Services Division Brian Simonson x4994

**Program Description** - The Centralized Services Division is responsible for overall department administration, budgeting, accounting, payroll, personnel, legal services, purchasing, information technology, public information, risk management, contract administration, and general services for the department. The Board of Milk Control and the Livestock Loss Board are administratively attached to the department. The Milk Control Bureau staff and the Livestock Loss Board (LLB) staff are part of the Centralized Services Division. The Livestock Loss Board provides compensation and prevention funding for predation losses to livestock producers from wolves, grizzlies, and mountain lions. The Board of Milk Control regulates producer pricing of milk (prices paid to dairy farmers) and fair-trade practices for the sale of all dairy products in Montana. The Predator Control Program is administered by the Board of Livestock and the executive officer.

## **Animal Health Division - 04**

## 04 Animal Health & Food Safety Division Dr. Martin Zaluski x2043

**Program Description** - The Animal Health & Food Safety Division (State Veterinarian Office) works with animal owners and veterinarians to prevent, control, and eradicate animal diseases, including those in bison and alternative livestock animals. The program cooperates with the Departments of Public Health and Human Services and Fish, Wildlife and Parks and the US Department of Agriculture to protect human health from animal diseases transmissible to humans including rabies and brucellosis by monitoring testing and enforcing animal quarantines. The division also regulates the importation of animals into Montana; ensures the production and sale of safe and wholesome products of animal agriculture including meat, poultry, and milk and their products; and enforces the laws of Montana relating to animal health and producing a safe and wholesome food supply.

## NP - 601 - Additional Brands Rerecord Staff (OTO) -

The executive proposes a one-time-only increase of 1.00 FTE and state special revenue for temporary employees required for the decennial brands re-record. The proposal is funded with livestock per capita fees.

Mission Statement - To ensure Montana's land and water resources provide benefits for present and future generations.

Statutory Authority - 2-15-104 and Title 2, chapter 15, part 33, MCA.

Language - The following language is proposed to be included in HB 2:

The department is authorized to decrease federal special revenue in the water pollution control and/or drinking water revolving fund loan programs and increase state special revenue by a like amount within administration accounts when the amount of federal EPA CAP grant funds allocated for administration of the grant have been expended or federal funds and bond proceeds will be used for other program purposes as authorized in law providing for the distribution of funds.

During the 2023 biennium, up to \$1 million of funds currently in or to be deposited in the DNRC Indirects special revenue account is appropriated to the department for indirect pool expenditures.

During the 2023 biennium, up to \$600,000 from the loan loss reserve account of the private loan program established in 85-1-603 is appropriated to the department for the purchase of prior liens on property held as loan security as provided in 85-1-615.

During the 2023 biennium, up to \$1 million of funds currently in or to be deposited in the Broadwater replacement and renewal account is appropriated to the department for repairing or replacing equipment at the Broadwater hydropower facility.

During the 2023 biennium, up to \$100,000 of interest earned on the Broadwater water users account is appropriated to the department for the purpose of repair, improvement, or rehabilitation of the Broadwater-Missouri diversion project.

During the 2023 biennium, up to \$500,000 of funds currently in or to be deposited in the state project hydropower earnings account is appropriated for the purpose of repairing, improving, or rehabilitating department state water projects.

During the 2023 biennium, up to \$1 million of funds currently in or to be deposited in the contract timber harvest account is appropriated to the department for contract harvesting, a tool to improve forest health and generate revenue for trust beneficiaries.

During the 2023 biennium, up to \$500,000 of funds in the Trust Administration and Forest Improvement accounts are

# **Department of Natural Resources and Conservation - 57060**

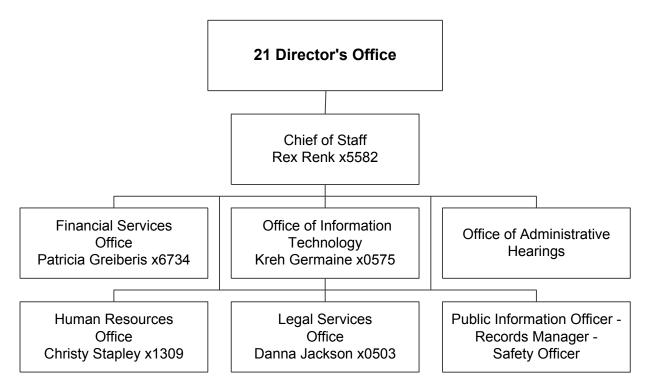

appropriated to the department for road maintenance on state trust lands due to damage from erosion, public use, flooding and/or post fire or other natural disaster restoration.

During the 2023 biennium, up to \$200,000 of funds currently in or to be deposited in the Trust Administration account are appropriated to the department for agriculture and grazing management infrastructure on state trust lands unexpected or emergency repair or replacement due to damage from public use, flooding, fire or other natural disasters.

#### SWPL - 2 - Fixed Costs -

The request includes \$375,209 in FY 2022 and \$243,594 in FY 2023 to provide the funding required in the budget to pay fixed costs assessed by other agencies within state government for the services they provide. Examples of fixed costs include liability and property insurance, legislative audit, warrant writer, payroll processing, and others. The rates charged for these services are approved in a separate portion of the budget.

### PL - 2102 - DO FUNDING SHIFT -

This request is to move funding from the Director's Office Indirects Assessment federal special revenue account to a state special revenue account to properly account for indirects assessment revenues & related expenditures of those revenues. Currently, the department records indirect assessment revenue and expenditures of those revenues in a federal special revenue account. This incorrectly reports federal activity twice on the state financials. Approval of this change package would apply to additional approved change packages with funding in the Director's Office Indirects Assessment federal special special revenue account.

### NP - 998 - REFINANCING COAL SEVERANCE TAX ACCOUNT -

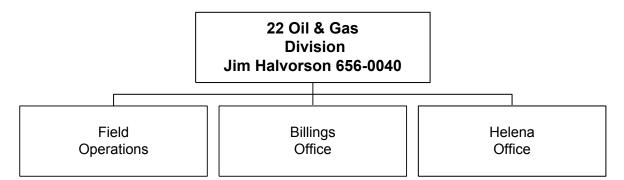

The Coal Severance Tax account dedicated in statute to help provide funding to Conservation Districts funds a portion of the division. Due to volatility of revenues, the Executive has proposed legislation to redirect the current revenue stream from the Coal Tax account to be deposited in the general fund. This change package moves the appropriation authority from the Coal Tax account to the general fund to coordinate with the legislation.

### NP - 999 - REFINANCING NATURAL RESOURCES OPERATIONS ACCOUNT -

The Natural Resource Operations (NRO) fund is a state special revenue fund that funds a portion of the division. Due to volatility of revenues, the Executive has proposed legislation to redirect the current revenue stream for the NRO to be deposited in the general fund. This change package changes the appropriation authority from the NRO to the general fund to coordinate with the legislation.

# Oil & Gas Conservation Div. - 22

**Program Description** - The Oil and Gas Conservation Division administers the Montana oil and gas conservation laws to promote conservation and prevent waste in the recovery of these resources through regulation of exploration and production of oil and gas. The division's responsibilities include the following:

- o Issue drilling permits
- o Require measures to be taken to prevent damage to land and underground strata
- o Classify wells
- o Establish well spacing units and pooling orders
- o Inspect drilling, production, and seismic operations
- o Investigate complaints
- o Perform engineering studies
- o Determine incremental production for enhanced recovery and horizontal wells to implement the tax incentive program for those projects
- o Operate the underground injection control program
- o Plug orphan wells
- o Collect and maintain complete well data and production information

### SWPL - 2 - Fixed Costs -

The request includes reductions of \$2,947 in FY 2022 and \$3,627 in FY 2023 to provide the funding required in the budget to pay fixed costs assessed by other agencies within state government for the services they provide. Examples of fixed costs include liability and property insurance, warrant writer, payroll processing, and others. The rates charged for these services are approved in a separate portion of the budget.

**Program Description** - The Conservation and Resource Development Division (CARDD) provides technical, administrative, financial, and legal assistance to Montana's 58 conservation districts by administering the Conservation District Act and assisting CD's as they administer the Natural Streambed and Land Preservation Act. The division co-administers the State Revolving Fund loan programs with DEQ and provides coal severance tax loans to governmental entities, and private loans. Grant programs administered by the division include the Reclamation Development, Renewable Resource, and Conservation District grant programs. Administratively attached to the division are:

- Flathead Basin Commission
- Upper Columbia Conservation Commission
- Montana Invasive Species Council
- Rangeland Resource Committee
- Grass Conservation Commission, and
- provides provide staff for the Montana Sage Grouse Oversight Team, which is attached to the Governor's office.

### PL - 2301 - CARDD & RANGELAND OPERATING ADJUSTMENTS -

This request is to fund cost increases in such as travel, insurance, and contracted services for the conservation district and resource development bureaus. This request of \$142,000 each year is also to assist with the operations of the Wastewater and Drinking water program of the Resource Development bureau. This will be used to cover contracted service expenses that are expected to increase over the biennium.

### PL - 2306 - SAGE GROUSE HABITAT CONSERVATION PROGRAM -

This request is for \$600,000 each year general fund to fund the sage grouse habitat conservation program in the Department of Natural Resources and Conservation. Funding for program administration expires in FY 2021. Without a program to perform the activities described in the Conservation Strategy, Montana cannot show affirmative actions are being taken to address threats to habitat and populations. Lack of adequate funding to implement the program and mitigate impacts of development increases the odds of an ESA listing.

### NP - 998 - REFINANCING COAL SEVERANCE TAX ACCOUNT -

The Coal Severance Tax account dedicated in statute to help provide funding to Conservation Districts funds a portion of the division. Due to volatility of revenues, the Executive has proposed legislation to redirect the current revenue stream from the Coal Tax account to be deposited in the general fund. This change package moves the appropriation authority from the Coal Tax account to the general fund to coordinate with the legislation.

### NP - 999 - REFINANCING NATURAL RESOURCES OPERATIONS ACCOUNT -

The Natural Resource Operations (NRO) fund is a state special revenue fund that funds a portion of the division. Due to volatility of revenues, the Executive has proposed legislation to redirect the current revenue stream for the NRO to be deposited in the general fund. This change package changes the appropriation authority from the NRO to the general fund to coordinate with the legislation.

**Program Description** - The Water Resources Division is responsible for programs associated with the uses, development, and protection of Montana's water.

The division consists of an administration unit and five bureaus:

- o Water Management Bureau
- o Water Rights Bureau
- o Water Adjudication Bureau
- o State Water Projects Bureau
- o Water Operations Bureau
- o Compact Implementation Program

Responsibilities of the division include:

- o To manage and maintain the state-owned dams, reservoirs, and canals
- o To develop and recommend in-state, interstate, and international water policy to the director, Governor, and legislature
- o To administer the Dam Safety, Floodplain Management, and Water Management programs
- o To conduct coordinated water resource planning, hydrologic assessments, and water measurement
- o To implement federal and tribal water compacts.
- o To provide support to the Board of Water Well Contractors
- o To assist the Water Court with the adjudication of pre-July 1, 1973, water rights
- o To administer applications for new water rights, changes in historic water rights, and ownership updates
- o To maintain centralized water rights records

#### PL - 2401 - WRD ESSENTIAL OPERATING FUNDS -

The Department of Natural Resources and Conservation requests operating funds of \$1,000,000 for the biennium in the Water Resources Division (WRD) budget to ensure essential operations continue. In the absence of these funds, WRD must consider closing at least one of the regional offices. This funding is essential for the sustainable operations of the eight regional offices. Closing offices would require the WRD to relocate staff to Helena and would eliminate in-person assistance in communities throughout the state. The loss of regional offices would also reduce the efficient management of state-owned projects throughout the state as all staff would be in Helena without local access to respond to incidents.

### PL - 2402 - WRD EAST FORK FINAL DESIGN -

The Department of Natural Resources and Conservation (DNRC) State Water Projects (SWP) bureau requests funding of \$400,000 each year to complete the final design and construction documents for the rehabilitation of the East Fork Dam. Rehabilitation will include a new spillway and seepage mitigation measures. The department's SWP bureau prepared a feasibility study on the East Fork Dam and identified several deficiencies that need to be corrected. The feasibility report is available for a complete justification of the project.

### PL - 2404 - WRD FLOW MEASUREMENT EQUIPMENT PURCHASE -

The Department of Natural Resources and Conservation's State Water Projects (SWP) bureau requests funding of \$98,700 in FY 2022 to purchase equipment (to be installed by staff) to measure flows into reservoirs and canals and to provide replacement equipment along with manual field measurement instrumentation for high flow events. Equipment is needed to provide real time monitoring to be able to efficiently adjust inflows and outflows on state owned water projects to be able to conserve water. The primary beneficiaries would be the irrigators using water from the state water projects.

### PL - 2414 - WRD HYDROELECTRIC PLANT OPERATOR FTE -

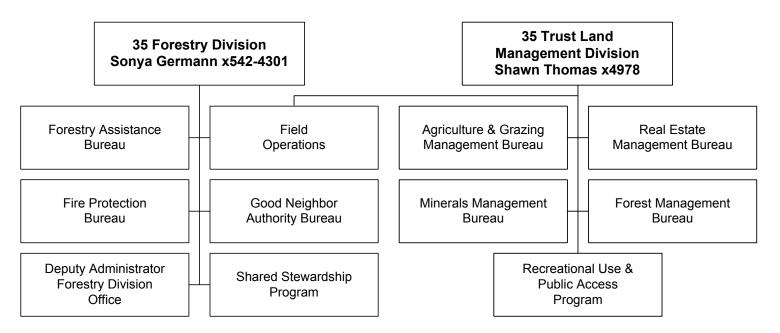

The Department of Natural Resources and Conservations State Water Projects (SWP) bureau requests \$110,981 in FY 2022 and \$108,260 in FY 2023 for a 1.00 FTE hydroelectric plant operator for the Broadwater Power Project (Project). SWP's request is in response to the Federal Energy Regulatory Commissions (FERC) required Owners Dam Safety Program (ODSP) audit finding of "Find and train more people who can function as Project Operators to provide more relief for the current Operators." Bringing on an additional operator will allow for dedicated engineering time for producing necessary documentation, including standard operating procedures, a capital improvement plan, and a dam safety training program, also as required by the ODSP audit. There are currently two full-time operators, and an additional operator is necessary to reduce operators on-call days from 15 to 10 per month. Additional staffing will increase both personnel and project safety during periods of high demand such as spring runoff and major construction/rehabilitation efforts.

### NP - 999 - REFINANCING NATURAL RESOURCES OPERATIONS ACCOUNT -

The Natural Resource Operations (NRO) fund is a state special revenue fund that funds a portion of the division. Due to volatility of revenues, the Executive has proposed legislation to redirect the current revenue stream for the NRO to be deposited in the general fund. This change package changes the appropriation authority from the NRO to the general fund to coordinate with the legislation.

## Program Description -

The Forestry Division is responsible for planning and implementing forestry programs statewide. Division responsibilities include protecting natural resources from wildfire, regulating forest practices, providing a variety of services to private forest landowners, implementing cross boundary projects to build resilient forests, sustainable economies and fire adapted communities, increasing forest restoration, management and health on federal lands and growing and selling seedlings for conservation and reforestation plantings on state and private lands in Montana.

- Fire Protection Program: Protects, lives, property and natural resources from wildfire by providing safe and effective services to Montana's citizens as well as leadership, coordination and resources to the State's wildfire organizations. To the extent possible, the bureau embraces effective wildfire response, fire adapted communities, and resilient landscapes.
- Forestry Assistance Program: Promotes the implementation of the Montana Forest Action Plan: working across boundaries building resilient forests, sustainable economies and fire-adapted communities. This program also connects landowners with technical guidance and cost-share programs to actively manage forests, provides seedlings for conservation projects statewide, and is responsible for ensuring compliance with the Streamside Management Zone Law, Timber Slash and Debris Law, and the Forest Practice Notification Law on nonfederal lands.
- Good Neighbor Authority Program: This program is organized around the existing federal Good Neighbor Authority, to increase forest restoration and management, and address forest health and resiliency, wildfire risk, and insect and disease infected forests through active management. This is accomplished through partnerships with federal land management agencies, conservation organizations and collaboratives. In addition to improving forest heath and reducing wildfire risk, these efforts provide a consistent commercial timber volume, retain forest industry jobs, and improve wildlife habit, and recreation opportunities on federal lands.
- Shared Stewardship Program: This program engages with a diverse group of partners to respond to the United States Forest Service Shared Stewardship Strategy, which calls for the state to take a lead role in convening stakeholders to set priorities across broad forested landscapes.

The Trust Lands Management Division administers and manages the state trust timber, surface and mineral resources for the benefit of the Common Schools (K-12), and other endowed institutions under the direction of the Board of Land Commissioners. Most state trust lands were granted to the State of Montana by the Enabling Act of 1889 and total approximately 5.2 million surface acres and 6.2 million mineral acres. Additionally, the division is responsible for the administration of approximately 3,400 miles (210,000+ acres) of the beds of navigable waterways. The Trust Land Management Division is divided into four primary programs:

- Forest Management: Responsible for the preparation, sale, and administration of 60 million board feet of timber through timber sales and permits. Forest Management also performs over \$1 million per year in Forest Improvement work, such as planting, thinning, and road maintenance activities on over 700,000 acres of classified forest land.
- Real Estate Management: Responsible for commercial and residential land leases, rights-of-way grants and acquisitions, land sales, land acquisitions, and land exchanges.
- Minerals Management: Responsible for oil and gas, coal, and other mineral leasing activities.
- Agriculture and Grazing Management: Responsible for overseeing agricultural and grazing activities on 4.7 million acres. There are approximately 8,900 agreements to lease land for grazing and crop production. The Agriculture and Grazing Bureau also manages the Recreational Use Program on Trust Lands.

### PL - 35201 - TLMD FORESTER FTE FOR FOREST MANAGEMENT -

The Trust Lands Management Division requests an increase of 2.00 FTE, including personal services and operating budget. The FTE would provide additional timber sale capacity for the Forest Management Program. The increase in FTE is due to several increases in the sustained yield calculation including a 5% increase in annual target for the current biennium. Over the last fifteen years, the Forest Management Program has continued to increase volume output and acres managed, while losing FTE. Besides personal service costs for each FTE, operating expenses, include an office package, computer, network charges, travel expenses and vehicle costs. The funding for the positions, \$171,397 in FY 2022 and \$165,896 in FY 2023, is state special revenue,

### PL - 35202 - TLMD & FORESTRY - OPERATING ADJUSTMENTS -

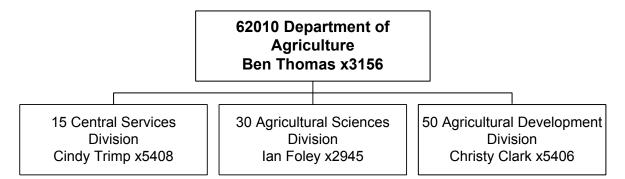

The Trust Lands and Forestry Divisions are requesting an operating cost adjustment, \$61,880 in FY 2022 and \$66,293 in FY 2023, to cover increases at the field offices for Northwestern, Central, Northeastern Land Offices and the Trust Lands headquarters. The cost increases are to janitorial, rent, and building maintenance contracts. The request is predominantly funded with state special revenue and a smaller portion of general fund.

### NP - 999 - REFINANCING NATURAL RESOURCES OPERATIONS ACCOUNT -

The Natural Resource Operations (NRO) fund is a state special revenue fund that funds a portion of the division. Due to volatility of revenues, the Executive has proposed legislation to redirect the current revenue stream for the NRO to be deposited in the general fund. This change package changes the appropriation authority from the NRO to the general fund to coordinate with the legislation.

**Mission Statement** - The mission of the Department of Agriculture is to protect producers and consumers and to enhance and develop agriculture and allied industries.

**Statutory Authority** - Article XII, Section 1, Montana Constitution; Title 80, Chapters 1-20, MCA; Title 90, Chapter 9, MCA; Title 2, Chapter 15, Part 30, MCA
