Other increases totaling \$52,979 in the first year and \$15,604 in the second year include an increase in library subscription costs, the addition of a videoconferencing bridge as an alternative to travel, an increase in state broadcasting distribution costs, and information officer activities not fully captured in the base year. #### NP-3-TVMT Consolidation of Funding & Transmission -

The first part of this proposal is to consolidate funding for TVMT in the LSD. Payments made from carry-forward appropriations, one-time-only appropriations, and legislative feed bills are not included in the present law base. The LSD asks the Legislature to recognize the combined costs already being paid from multiple funding sources and to consolidate appropriations for TVMT. A total of \$331,336 is included in LSD's present law budget; the first part of this proposal appropriates an additional \$283,570 general fund to the LSD for the 2011 biennium to eliminate the use of carryforward funds, one-time appropriations, and beginning with the 2011 session, legislative feed bills. As directed by the Legislative Council, the second part of this proposal is to increase transmission efforts to reach Montana communities not previously included in the TVMT viewing area and to continue the same transmission effort during the legislative interim as during a legislative session. The combined cost for both years of the biennium is \$1,195,164 general fund.

## NP- 4 - Reserve Funds for Obsolete Systems - OTO -

Section 5-11-407, MCA, created the legislative branch reserve account to set aside funds for major legislative branch information technology projects. Funds in the reserve account are invested pursuant to Title 17, Chapter 6, and may only be expended with the approval of the Legislative Council. The estimated reserve balance at the end of FY 2009 will be \$500,000 following replacement of the House and Senate voting systems and boards and FYE 2009 reversions.

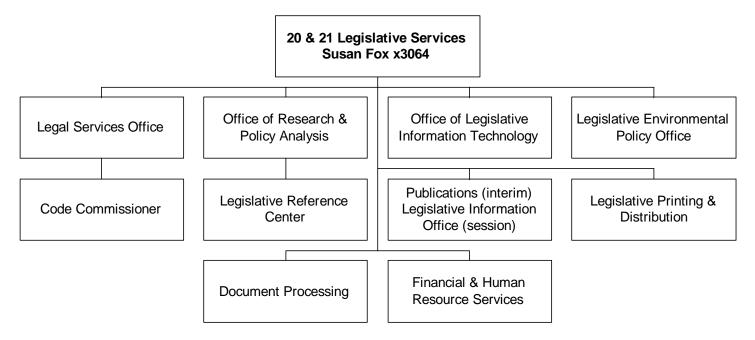

The Legislative Services Division is requesting the legislature transfer \$5 million general fund into the reserve account to provide funding for the replacement of the Legislative Automated Workflow System (LAWS) and appurtenant systems for bill drafting, engrossing, enrolling, committee minutes, journal, bill status, and code update. The replacement process is projected to take four years beginning in FY 2010 and ending in FY 2013.

The Workers' Compensation Management program at the Department of Administration was funded by the 2007 Legislature with a one-time-only general fund appropriation. For the 2011 biennium and beyond, the program will be funded via a fixed cost allocation. Because the program was approved as an OTO for the current biennium, it must be presented as a new proposal for the next biennium. The budget includes \$8,150 in FY 2010 and \$8,171 in FY 2011 general fund for the Legislative Branch's allocation of the fixed cost.

## PL-5 - Program Operations, Committees & Activities Program -

This proposal includes a general fund increase of \$336,614 in FY 2010 and a decrease of \$13,802 in FY 2011. First year increases and second year decreases reflect adjustments to the base year for the biennial legislative interim. Biennial program increases include increased costs of lodging and mileage only partially captured in the base year, organizational dues, training and conference registration fees, and re-establishment of the Legislative Council discretionary fund for emerging issues. ## PL-2 - Coordinator of Indian Affairs Operating Budget -

The executive recommends \$5,000 general fund each year of the biennium for the Office of the Coordinator of Indian Affairs. Expenses for the office in FY 2006 did not reflect an adequate base. This level has carried forward into the 2009 biennium, and there is not sufficient budget to maintain a realistic level of operations.

This request for a restricted appropriation of \$87,871 in FY 2010 and \$84,313 in FY 2011 of state special revenue is for personal services and associated operating costs to hire an additional attorney in the Insurance Division of the State Auditors Office. The Legal Unit currently has an employee that has frequently been on extended USERRA protected military leave as a member of the National Guard. As a result of these extended leave periods, the Legal Unit has had to rely on temporary replacements, which has disrupted the work flow of the agency. The legal work required by this agency requires substantial training and therefore temporary attorney replacements are problematic. Recruiting temporary attorneys is difficult, and the learning curve for this position is substantial.

#### NP- 6101 - Fixed Cost Workers Comp Mgmt Program Allocation -

The Workers' Compensation Management program at the Department of Administration was funded by the 2007 Legislature with a one-time-only general fund appropriation. For the 2011 biennium and beyond, the program will be funded via a fixed cost allocation. Because the program was approved as an OTO for the current biennium, it must be presented as a new proposal for the next biennium. The budget includes \$890 in FY 2010 and \$772 in FY 2011 general fund for the Citizen's Services and Resource Management Division's allocation of the fixed cost.

# DEPARTMENT OF REVENUE-5801 BUSINESS AND INCOME TAXES DIVISION-07

Please note that this program also contains proprietary funding (see Section P).

**Program Description -** The Business and Income Taxes Division is responsible for the administration and collection of a total of 38 Montana taxes and fees including but not limited to corporation license, natural resource, withholding, individual income, lodging facilities, cigarette and tobacco products, contractor's gross receipts, and telecommunications taxes. The division also values all industrial and centrally assessed property in the state. Some of the duties associated with administration include: tax type expertise, taxpayer education, auditing, identification of non-filers, delinquent account collection, and overall tax compliance. The Accounts Receivable and Collections Bureau, the Business Tax and Valuation Bureau, and the Income and Withholding Tax Bureau handle these functions for the department.

#### PL-70007 - Debt Collection - Child Support Cases -

When the bad debt collection unit collects child support payments, it does not charge a collection fee to the parent like it would when collecting other types of debt. The general fund has historically paid these costs. Because some of these costs were recorded as personal services expenses in the base year, and personal services are zero based, the funding was not carried forward in the 2011 biennium budget. This request restores the funding in the operating expenses category to more appropriately reflect the expenditures. The amount restored is approximately \$57,000 general fund each year of the biennium.

#### NP- 70002 - Nonresident and Non-filer Tax Compliance -

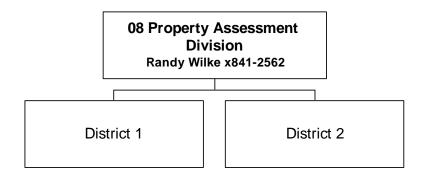

The Department of Revenue, Business and Income Taxes Division requests 12.00 FTE in the 2011 biennium to continue the department's efforts to keep taxes fair and low for Montanans by asking nonresidents and non-filers to pay the taxes they owe Montana. Through improved compliance, the requested staff will generate an estimated \$8 million during the 2011 biennium. This estimate is based on a return of \$8 for every \$1 spent on compliance. This request is for FTE only; no funding is requested. These FTE are needed to address identified compliance issues in such areas as: 1) pass-through entities' partners and shareholders that have not filed or have underreported income; 2) nonresidents selling property in Montana who have not filed or paid the appropriate tax associated with the capital gain from the sale of Montana property; and 3) non-filers or underreported income that have been identified through the cross-matching of department data with various external data sources (e.g., information from the IRS, other state agencies, and information reports such as Federal 1099s). Other compliance issues will also be addressed as they arise.

## NP- 70003 - Reduce Smoking through Tobacco Tax Compliance -

The Department of Revenue, Business and Income Taxes Division requests \$355,733 in state special revenue authority and 3.00 FTE in the 2011 biennium to continue the Tobacco Tax Compliance Program. In the 2009 biennium, the legislature approved spending authority with no FTE for this program. The department used 3.00 modified FTE to continue the program; however funds spent on modified FTE are removed from a department's base budget and therefore must be requested again. No operating expenses are needed because these expenditures are included in the department's base budget. Approval of 3.00 FTE and personal services spending authority will provide stability and continuity to this important program.

### NP- 6101 - Fixed Cost Workers Comp Mgmt Program Allocation -

The Workers' Compensation Management program at the Department of Administration was funded by the 2007 Legislature with a one-time-only general fund appropriation. For the 2011 biennium and beyond, the program will be funded via a fixed cost allocation. Because the program was approved as an OTO for the current biennium, it must be presented as a new proposal for the next biennium. The budget includes \$9,807 in FY 2010 and \$8,504 in FY 2011 general fund for the Property Assessment Division's allocation of the fixed cost.

### NP- 80008 - Improve Efficiency through Field Computers -OTO -

The Department of Revenue, Property Assessment Division, requests \$794,000 in one-time-only general fund for the 2011 biennium to help provide an increase in appraisal efficiency that is required for it to meet its constitutional charge to fairly and equally value property. This request will provide hand held laptop computers (plus the necessary software enhancement) to division staff members for field use. The exponential growth in the work of the Property Assessment Division over the past many years coupled with a net reduction in staff over that same time period means the division has to find ways to become more efficient. Eliminating as much duplication of effort is an essential ingredient to increased efficiency. The current process for performing field work functions such as capturing new construction, updating building characteristics, discussing property values with property owners, resolving AB-26 and appeal issues, etc. is cumbersome. Each event involves many pieces of paper and the involvement of multiple staff. This proposal contemplates the use of a pen-based/hand held/laptop computer system to help staff capture and maintain property information while in the field.

## DEPARTMENT OF ADMINISTRATION-6101 STATE ACCOUNTING DIVISION-03

Please note that this program also contains proprietary funding (see Section P).

**Program Description -** The State Accounting Division consists of several programs/activities funded from the general, federal special, and proprietary funds.

The Accounting Bureau is the process owner of the financial portion of the Statewide Budgeting, Accounting and Human Resource Systems (SABHRS), establishes state accounting policies and procedures, administers the federal Cash Management Improvement Act, prepares and negotiates the Statewide Cost Allocation Plan (SWCAP), and prepares the state Comprehensive Annual Financial Report (CAFR). Additionally, the bureau provides accounting assistance and training to state agencies. The warrant writer activity (internal service funded) which is part of the Accounting Bureau, is discussed in the proprietary fund section below.

Local Government Services Bureau provides technical assistance and training to local government accounting and financial personnel. The bureau maintains and publishes the local government Budgetary, Accounting and Reporting System (BARS) chart of accounts and the county collection and accounting manuals. The bureau provides local government financial information to the public, legislature, federal government and other public entities. The audit review function (Enterprise funded) is discussed in the proprietary fund section below.

The Treasury Unit provides the central banking function for state agencies, reconciles the state bank accounts (approximately 60 banks), and insures the collateralization of these bank accounts is maintained at the proper level.

#### NP- 304 - CAFR Software -OTO -

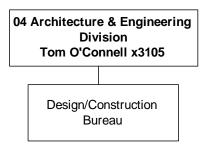

The budget includes funding to lease and implement Comprehensive Annual Financial Report (CAFR) preparation software. The request is for \$200,000 one-time-only general fund in the 2011 biennium. The CAFR preparation currently relies on a combination mainframe (Cobol) and Microsoft Access process. Information from Statewide Accounting Budgeting and Human Resource System (SABHRS) is downloaded into the mainframe and Access databases. The final financial statement information is downloaded into Lotus spreadsheets. The current process requires the hiring of outside Cobol programmers for changes to the mainframe process. These programmers are becoming scarce. The Access processes are maintained on a single desktop. The new software will eliminate the need for the mainframe and Lotus schedules and will allow for a simplified load of information from SABHRS. This software will be maintained by the SABHRS support staff in addition to an internal programmer. This will provide for more depth in the CAFR process and less risk for the state.

#### NP- 6101 - Fixed Cost Work Comp Mgmt Program Allocation -

The Workers' Compensation Management program at the Department of Administration was funded by the 2009 Legislature with a one-time-only general fund appropriation. For the 2011 biennium and beyond, the program will be funded via a fixed cost allocation. Because the program was approved as an OTO for the current biennium, it must be presented as a new proposal for the next biennium. The budget includes \$581 in FY 2010 and \$503 in FY 2011 general fund for the State Accounting Division's allocation of the fixed cost.

The Workers' Compensation Management program at the Department of Administration was funded by the 2007 Legislature with a one-time-only general fund appropriation. For the 2011 biennium and beyond, the program will be funded via a fixed cost allocation. Because the program was approved as an OTO for the current biennium, it must be presented as a new proposal for the next biennium. The budget includes \$529 in FY 2010 and \$458 in FY 2011 state special revenue funds for the Architecture and Engineering Division's allocation of the fixed cost.

## DEPARTMENT OF ADMINISTRATION-6101 GENERAL SERVICES PROGRAM-06

Please note that this program also contains proprietary funding (see Section P).

**Program Description -** The General Services Division is composed of four bureaus responsible for providing internal services to government agencies and the public.

The Facilities Management Bureau manages the following services for state agencies in the capitol complex and several state-owned buildings in the Helena area either directly or through the administration of service contracts: repair, maintenance, construction, energy consumption, disaster response and recovery, space allocation, lease negotiation, security, janitorial, recycling, pest control, grounds maintenance, and garbage collection.

The State Procurement Bureau procures or supervises the procurement of all supplies and services, and provides technical assistance to government agencies and the public to ensure compliance with the Montana Procurement Act. The bureau also manages the state's energy procurement, vehicle fueling, and procurement card programs.

The Print and Mail Services Bureau provides print and mail services to state agencies. Services include internal and external (contracted) printing, photocopy pool services, mail preparation, central mail operations, and inter-agency (deadhead) mail. The bureau also operates the United States post office in the Capitol Building and provides three quick copy locations on the Capitol Complex.

The budget includes a funding switch of approximately \$276,000 each year from the general fund to a state special revenue fund. Proposed agency legislation will divert funds currently deposited in the general fund to a state special revenue fund for the administration of the 9-1-1 program. This decision package removes base costs from the general fund. Any remaining funds at the end of a fiscal year in the special revenue fund will be divided equally between four 9-1-1 accounts, and distributed to the local 9-1-1 jurisdictions. The proposal is contingent on passage and approval of LC 250.

### PL- 2104 - Daycare Lease Rate -

In November 2005, the Health Care and Benefits Division (HCBD) renegotiated its lease with the Helena School District for daycare facilities located at the Ray Bjork School. Following the three year contract, the lease agreement allows for annual renewals with a rent rate increase equal to the current cost per square foot multiplied by the CPI index for all urban consumers for the previous year. This request funds the anticipated increase.

The State Tax Appeal Board directs the county tax appeal board secretaries, who are state employees, and pays their salaries and employee benefits from its personal services appropriation. The board also reviews and pays the expenses, including employee benefits, of those county tax appeal board secretaries who are county employees. In addition, the board pays the clerical-related expenses for all 56 county tax appeal boards, including supplies, postage and copies, but excluding office equipment.

## NP- 5192 - EPDD Energy Division - Reauthorize OTO -

The creation of the Energy Promotion and Development Division was funded with a one-time-only general fund appropriation by the 2007 Legislature. This budget request reauthorizes the one-time-only appropriation of \$330,000 for the 2011 biennium to continue the operation of the division and adds an additional \$125,000 to the program. # DEPARTMENT OF COMMERCE-6501 COMMUNITY DEVELOPMENT DIVISION-60

**Program Description -** The original enabling legislation for the Department of Commerce was the Planning and Economic Development Act of 1967. Supporting sound community planning and local economic development have been parallel missions for the department ever since. The missions of the Community Development Division (CDD) are primarily mandated in Title 90, Chapter 1 and Chapter 6, MCA; and federal authorizations 24 CFR 570, subpart 1; and 42 USC 5301.

The CDD administers three programs directly: the Community Technical Assistance Program (CTAP), the Community Development Block Grant Program (CDBG), and the Treasure State Endowment Program (TSEP).

Two citizen boards, appointed by the Governor, are attached to the CDD for administrative purposes. The division provides office facilities, staff, and administrative support for the two boards: the Montana Coal Board and the Montana Hard Rock Mining Impact Board.

**Language Recommendation**: - "The department is appropriated up to \$800,000 for the 2011 biennium from the state special revenue account established in 90-6-304, MCA, for the purposes of disbursing hard rock mining impact funds to the impacted counties per 90-6-331, MCA, if revenue exceeds the appropriated amount in HB 2."

Montana needs to ensure a 21<sup>st</sup> Century workforce is ready for the jobs of today and tomorrow. Emerging technology, new job skills, and the demands of a changing economy, require Montana to quickly adapt the state's workforce to the needs of business and industry. The most efficient and cost effective way to prepare students entering the job market and those already in the workforce is to coordinate efforts and leverage resources. This budget request contains a dual-faceted approach to integrate an in-process reorganization at the Department of Labor and Industry with a proposal to identify gaps and respond to emerging workforce demands by helping workers receive necessary training in a variety of circumstances. The reorganization includes workforce technology infrastructure and moves the Jobs for Montana Graduates program, the Apprenticeship and Training program, the WIRED program, and the Statewide Workforce Investment Board (SWIB) into the 21<sup>st</sup> Century Workforce Technology, Apprenticeship, and Training Bureau. In addition, it increases the Incumbent Worker Training program. The proposal adds \$550,000 general fund and \$400,000 state special revenue each year of the 2011 biennium for administration of a Worker Development and Training Fund, including a Community College Student Growth account, which can quickly respond to rapid growth in high demand fields. In addition, these funds will support the coordination of these programs with other partners in the bureau and in the state of Montana, including education and economic development to best develop a responsive workforce.

### NP- 203 - UI Funding Switch -

In the 2007 Legislature, HB 790 was passed to decrease employers' State Unemployment Insurance Contributions tax rate schedules and generate additional revenue for administration of the Unemployment Insurance Division. This new rate structure did not become effective until January 1, 2008; therefore, the revenue collected in the base year was for only one quarter. This request for \$1.4 million in FY 2010 and \$1.7 million in FY 2011 state special revenue funding in place of federal special revenue funding will complete the funding switch for an entire fiscal year.

## NP- 204 - UI Parking & Building Repair Bien - OTO -

The Unemployment Insurance Division Claims Processing Center in Billings is a state owned building. This request of \$163,700 FY 2010 state special and federal special revenue funding is to use funds from the sale of a parking lot a block away from the building and to request additional funds to develop an unpaved lot adjacent to the building and resurface the lot directly in front of the building. In addition, this request would allow the department to replace the carpet within the building.

#### NP- 501 - BSD - Funding Switch -

This request is to move 33.00 proprietary FTE to HB 2. The FTE are currently accounted for in an internal service fund whereby a "recharge" is assessed to the boards and programs who use their services. The operating costs related to the FTE are in HB 2 base authority. Moving the FTE to HB 2 would more properly account for the cost of services provided through cost allocation rather than a "recharge". There is no net increase in costs for this proposal.

## NP- 6101 - Fixed Cost Workers Comp Management Program Allocation -

The Workers' Compensation Management program at the Department of Administration was funded by the 2007 Legislature with a one-time-only general fund appropriation. For the 2011 biennium and beyond, the program will be funded via a fixed cost allocation. Because the program was approved as an OTO for the current biennium, it must be presented as a new proposal for the next biennium. The budget includes \$452 in FY 2010 and \$389 in FY 2011 general fund for the Centralized Services Division allocation of the fixed cost.

# DEPT OF MILITARY AFFAIRS-6701 CHALLENGE PROGRAM-02

**Program Description -** The Montana National Guard Youth ChalleNGe Program is a volunteer program for youth ages 16 to 18 who have stopped attending secondary school before graduating. ChalleNGe is a 17-month, voluntary two-phased military modeled training program targeting unemployed, drug-free, and crime-free high school dropouts. The program provides an opportunity for high school "at risk" youth to enhance their life skills, increase their educational levels, and their employment potential. Phase I of the program is a 22 week residential stay on the campus of Western Montana College of the University of Montana in Dillon focusing on physical training, classroom instruction, personal development, and life skills. Phase II is a year-long mentoring relationship with a specially-trained member of the community where the youth resides to provide a positive role model and to assist the student in gaining employment or enrolling in post-secondary schooling.

#### PL- 201 - Improve ChalleNGE Recruiting Efforts -

The executive recommends \$38,356 in FY2010 and \$38,364 in FY 2011 in additional general fund and federal special revenue funding for 1.00 FTE to improve Montana Youth Challenge Program (MYCP) recruiting efforts. Due to the large size of the state and the limited number of recruiters in the program, the program has been unable to generate adequate applications for entry into the MYCP. Lack of applications has adversely affected the graduation rates and the viability of the program. It is essential to add another recruiter to work with high schools and parents in several locations to give youth who drop out of high school a second chance. The 2005 Legislative Audit identified that in the Billings, Bozeman, Butte, Missoula, and Kalispell/Flathead Valley areas of the state and the Crow, Rocky Boy's, and Flathead Indian Reservations, the program's recruitment rates were less than the drop out rate. The audit recommended that the program analyze program recruitment data and target recruitment resources based on the student drop out rate for individual high school districts.

These costs are zero based and are not included in the program's base budget. These costs are incurred because the program is required to have staff coverage 24 hours a day, 7 days a week.

Montana Disaster and Emergency Services (DES) is the State Administrative Agency for various FEMA and Homeland Security grants. The receipt of these grants does not always align with the budgeting cycle. Total request is for \$24,870,845 federal special revenue authority in the 2011 biennium with \$511,939 for operating expenses and \$24,358,906 for grants. Anticipated grants for the 2011 biennium are: Homeland Security Grant, Buffer Zone Protection Program, Interoperable Emergency Communications Program, Hazardous Materials Emergency Preparedness Grant, Stonegarden, and the Comprehensive Environmental Response, Compensation and Liability Act.

### NP- 3102 - Expand and Enhance Statewide Veterans Services -

The executive recommends 3.00 FTE and operating funds to provide better service to the state's veterans at a general fund cost of \$121,436 in FY 2010 and \$121,525 in FY 2011. The "signature" disabilities associated with the continual influx of Global War on Terror veterans is post traumatic stress disorder and traumatic brain injury. Further, the average number of disabilities has increased to ten per veteran claim, from an average of 4 in 2000. The increasing quantity and complexity of veterans disability claims mandates a proportional increase in the State of Montana's capability of serving our veterans. Therefore, the request includes 3.00 FTE to better serve Montana's veteran population. The positions would be Veterans Service Officers, and would be stationed in Polson, Billings, and Helena.
