GOVERNOR'S OFFICE OF
BUDGET AND PROGRAM PLANNING

INFRASTRUCTURE in MONTANA

Purpose – The Montana Infrastructure proposal provides the legislature the opportunity to create jobs by completing state infrastructure projects throughout Montana.

Executive Recommendation –

- The 2025 Biennium Montana Infrastructure proposal is comprised of general obligation bonds, state special revenue, federal special revenue, and bond funds. **Table F-1** shows the state programs and the funding, required for the proposal.
- Following the chart below, each program provides a list of projects and more details about the program.
- State funding includes agency contributions of SSR, and SSR bonds totaling \$312,522,711
- FSR included in projects totals \$140,421,662
- Long Range funding included in the bill \$813,490,952
- Authority only projects contribute \$249,118,234 to the bill.

LONG-RANGE BUILDING PROGRAM

LRBP

Purpose - The Long-Range Building Program (LRBP) was initiated in 1965 to provide funding for construction and major maintenance of state buildings. The LRBP was developed in order to present a single, comprehensive and prioritized plan for allocating state resources for capital construction and maintenance of state-owned facilities. Primary statutory authority is Title 17, Chapter 7, part 2, MCA.

Executive Recommendations –

- **Volume 3 of the Governor’s 2025 Biennium Executive Budget** contains complete descriptions of all recommended projects.
 - Table F-2 shows Long-Range Building Major Repair Account revenue.
 - Table F-3 shows Long-Range Building Program Major Repair projects.
 - Table F-4 shows Long-Range Building Program Capital Development Account revenue.
 - Table F-5 Long-Range Building Program Capital Development projects.
- The LRBP Major Repair category contains \$71,725,600 in cash revenue project (minimum of \$30,305,509 required per 17-7-222 MCA), \$6,128,060 state special revenue, \$7,912,920 federal special revenue, and \$4,495,000 authority-only requests in HB 5 for a total of \$90,261,580.
- The LRBP Capital Development category consist of \$594,190,344 in cash revenue projects, \$139,607,084 state special revenue, \$51,712,537 federal special revenue, and \$244,623,234 authority-only requests to be funded in HB 5 for a total of \$1,030,133,199.
- Authority-only requests are for projects that have or will receive funding that does not require an appropriation.
- Funding is requested for 93 Major Repair projects and 98 Capital Development projects in HB 5 for a total of 191 projects.
- Due to extensive inflationary impacts, material and labor shortages, and supply chain disruptions, within the 190 total projects the Executive Budget contains 19 Major Repair projects and 21 Capital Development projects requiring an adjustment increasing prior legislative appropriations and/or authorities in order to be completed.
- Volume 3 includes a listing of all LRBP project requests submitted by Agencies for the 2025 biennium.

Since the Last Legislative Session –

In addition to many Major Repair projects (roofing, HVAC, boilers, life safety systems, etc.), the Architecture & Engineering Division has completed:

- Romney Hall Renovation, MSU
- American Indian Hall, MSU
- Life Science Building Renovation & Expansion, MSU Billings
- Steam Distribution Emergency Repairs, MT-Tech
- Backup Water System, MSH
- Reroof School, Gym & Maintenance Facility, PHYCF
- Southwest MT Veterans Home, Butte
- Wolf Point Maintenance Shop, MDT
- Upgrade Missoula HQ, FWP
- MLEA Building Improvements, Helena
- Montana Highway Patrol Office, Glendive

In addition to many Major Repair projects (roofing, HVAC, boilers, life safety systems, etc.), construction is underway on many projects including:

- Montana Heritage Center, MHS
- Wellness Center, MSU
- Silver Bow Readiness Center, DMA
- Steam Distribution System Replacement, MT-Tech
- Wastewater System Replacement, MSH
- Cottage Connectors Southwest MT Veterans Home, Butte
- Commodities Warehouse Expansion, DPHHS
- MAES Greenhouse Laboratories, MSU

State Buildings Energy Conservation Program SBCEP

Purpose

The State Buildings Energy Conservation Program (SBCEP), operated by the Department of Environmental Quality (DEQ), was established by the 1989 Legislature to reduce operating costs in state facilities by identifying and funding cost effective resource efficiency improvements. Statutory authority is Title 90, Chapter 4, part 6, MCA.

Background

- The program was started with one-time-only federal grant funding, then from 1993-2007 the state sold general obligation (G.O.) bonds and used the bond proceeds to pay for resource efficiency improvements. These bonds continue to be repaid from the resulting project cost savings.
- In the 2011 biennium, general fund and one-time-only federal funding were utilized for energy improvement projects and enabled the establishment of the current revolving fund program.
- During the 2017 Special Legislative Session, a one-time transfer of \$450,000 was moved from the state-funded Energy Conservation and Capital Projects account to the general fund to help backfill budget shortfalls.
- Resource efficiency improvements include replacing old inefficient boilers, upgrading inefficient lighting, increasing ventilation system efficiency, insulating buildings, providing more effective temperature controls, and installing water conserving fixtures
- Projects are designed so the cost savings meet or exceed the project investment. Project repayments revolve into an account for reinvestment into new projects.
- DEQ provides technical assistance on project development and works with facility staff to ensure that cost savings are maintained.
- During fiscal years 2022 and 2023, the SBCEP has and/or intends to invest approximately \$1,876,745 into five projects resulting in estimated utility cost savings of \$171,146 per year. (Montana School for Deaf and Blind, Helena Job Service, Montana Heritage Center, Montana Women’s Prison, and UM Western)

Executive Recommendation

\$3.7 million in appropriation is recommended for fiscal years 2024 and 2025 for the State Building Energy Conservation Program. Proposed projects are listed in table F-5. This appropriation is noted in the LRBP chart as Energy Improvements.

F-5 State Building Energy Conservation Program SBCEP	
Department of Labor and Industry	
Polson Job Service - Lighting Upgrade	\$7,000
Department of Natural Resources and Conservation	
Missoula Campus Lighting Upgrade (Spurgin Road)	\$80,000
Educational Facilities	
Montana Tech:	
Bureau of Mines and Geology - Billings Office Lighting Upgrade	\$16,000
Bureau of Mines and Geology - Billings Office Server Room Chiller	\$6,200
Miles Comm College - Main Campus Lighting Upgrade w/Boiler Replacement	\$160,000
Department of Fish, Wildlife, and Parks	
Missoula - Campus Lighting Upgrade (Spurgin Road)	\$45,000
Pictograph Caves SP - Lighting Upgrade	\$5,000
First Peoples - Lighting Upgrade	\$7,500
Makoshika SP – Visitor Center Basement Lighting Upgrade	\$5,000
Makoshika Park – Solar PV	\$26,000
Giant Springs Hatchery – Lighting Upgrade	\$25,000

State Buildings Energy Conservation Program SBECP

State-wide Energy Improvements	
Additional Projects To Be Determined	\$3,317,300
Potential Projects Include:	
COR Boulder Riverside Unit - Campus Lighting Upgrade	
COR Backup Power	
DOJ Boulder - Campus Lighting Upgrade	
DPHHS Polson Office - Lighting Upgrade	
MT Tech Solar PV	
MT Tech Solar PV -> Hydrogen -> Electricity	
MT Tech Geothermal Orphan Boy Mine	
MSU Great Falls COT - Campus Lighting Upgrade	
MSU Northern - Havre Campus Lighting Upgrade	
MSU Billings - Campus Lighting Upgrade	
Estimated Cost of Projects / Authority Request	\$3,700,000

Renewable Resource Grant and Loan Program RRGL

Purpose - The Renewable Resource Grant and Loan (RRGL) Program offers funding for projects that conserve, manage, develop, and preserve renewable resources to provide economic and other benefits of the state's natural heritage. The Department of Natural Resources and Conservation (DNRC) administers the program, which is provided for in Title 85, Chapter 1, part 6, MCA. Governmental entities may apply to the program to obtain funding for community resource-related projects. Project eligibility includes irrigation system rehabilitation, stream restoration, watershed management, public water and sewer systems, and resource assessment projects.

Executive Recommendation -

- **Volume 6 of the Governor's 2025 biennium Executive Budget** contains the complete project evaluations and funding recommendations for all grant and loan applications. Table **F-6A and F-6B** shows the projects recommended for funding.
- RRGL infrastructure project grant awards are included in HB 6 and will be funded with an appropriation of \$6,250,000 and irrigation project grant awards will be funded with an appropriation of \$2,500,000 of natural resource projects state special revenue account (SSRA) funds.
- RRGL recommends provision for \$3,500,000 for project planning grants, \$300,000 in emergency grants to communities with projects that present immediate threats to public health, \$500,000 for irrigation grants, \$500,000 for watershed management grants, \$100,000 for private grants, and \$2,500,000 for nonpoint source pollution reduction grants. HB 6 will appropriate \$7,400,000 of natural resource projects SSRA funds for these small grant programs during the 2025 biennium.

Since the Last Session -

RRGL Program to date - 2023 Biennium:

- RRGL Project Grants – 68 of the 76 projects authorized by the 67th legislature are contracted for a total of \$8,750,000;
- Emergency Grants - 5 grants are contracted for a total of \$50,000;
- Planning Grants - 66 grants are contracted for a total of \$934,000;
- Watershed Management Grants - 14 grants are contracted for \$300,000;
- Irrigation Development Grants - 11 grants are contracted for \$150,406; and
- Private Grants - 1 grant is contracted for \$3,401.

Reclamation and Development Grants Program RDGP

Purpose - The Reclamation and Development Grants Program (RDGP) was established by the Montana Legislature in 1987 to enable funding for projects that indemnify the people of Montana for the effects of mineral development on public resources and that meet other crucial needs serving the public interest and the total environment of the citizens of Montana. Administered by the Department of Natural Resources and Conservation (DNRC), the RDGP fulfills this mission by funding projects that (1) repair, reclaim, and mitigate environmental damage to public resources from nonrenewable resource extraction, and (2) develop and ensure the quality of public resources for the benefit of all Montanans. The RDGP Act is Title 90, Chapter 2, part 11, MCA.

Executive Recommendation -

- **Volume 5 of the Governor's 2025 biennium Executive Budget** contains the complete project evaluations and funding recommendations for the RDGP. Table **F-7** shows the funded projects.
- RDGP presents the reclamation and development grant awards that will be funded with an appropriation of \$3,653,347 in state special revenue.
- Representative mining/mineral reclamation projects include the restoration of Grasshopper Creek to reduce mine tailing erosion and repair and replacement of leaking sewer mains in Black Eagle, the sewer system is a relic of the former Anaconda Copper and Mining Company Smelter and operations.
- Non-mineral, hazardous waste projects include petroleum cleanup at Chester Motors, asbestos removal and contaminated soil cleanup at the Harlowton Roundhouse and soil and groundwater remediation at the Milwaukee Roundhouse in Deer Lodge.
- Crucial state need projects include the DNRC owned Willow Creek Dam rehabilitation and East Fork of Rock Creek Dam rehabilitation, Philipsburg wastewater project, Cascade Conservation District's Muddy Creek restoration and DNRC's Hydrology Data Portal.
- Also included is an appropriation of \$2,000,000 for planning grants.

Since the Last Session - RDG Program to date - 2023 Biennium:

- 10 grantees that received appropriations through HB 7 and HB 14 from the 67th Legislature have started their projects for a total of \$3,200,165.
- 5 planning grants have been awarded for a total of \$213,585.

Renewable Resource Loans and Coal Severance Tax Bonds

Purpose – Department of Natural Resources (DNRC) is authorized to make loans to political subdivision and local governments to help finance renewable resource projects.

Executive Recommendation –

- RRGL recommends reauthorization for seven renewable resource loans and associated bonds. Currently, there are three new projects that will need loans funded by bonds. Table F-8 shows the request for the 2025 Biennium plus authority to assist projects during the biennium.
- Included is a 10% reserve on the coal severance bonds of \$8,995,000.

Loans since last session:

- Town of Belt Water System for \$464,655.
- Town of Harlowton Sewer System for \$790,689.
- Town of Lima Water System for \$164,167.
- Highwood Water & Sewer District Sewer System for \$113,569.
- Vaughn Water & Sewer District Water System for \$70,258.
- Riverside Water & Sewer District Water System for \$296,820.
- Fort Benton Water and Sewer System for \$250,000.

New Loans – 2023 HB 8

New loans to be included in House Bill 8 include:

- Greenfields Irrigation District Hydroelectric Development for \$1,500,000
- DNRC East Fork Dam Rehabilitation for \$10,000,000
- DNRC Painted Rocks Dam Rehabilitation for \$6,000,000

Reauthorizations – HB 8

Loans to be reauthorized include:

- Dry Prairie Regional Water Authority - \$5,000, 000. These loan proceeds would be used to meet state match requirements for Dry Prairie regional water projects.
- North Central Regional Water Authority - \$5,000,000. These loan proceeds would be used to meet state match requirements for North Central Montana regional water projects.
- Central Montana Regional Water System - \$5,000,000. These loans proceeds would be used to meet local match requirements for the system for other funding sources.
- Dry Redwater Regional Water System - \$5,000,000. These loan proceeds would be used to meet local match requirements for the system for other funding sources.
- Huntley Project Irrigation District - \$3,500,000. This loan would finance two primary projects, the most significant of which is the reconstruction of a failing canal tunnel. Options include rehabilitation of the existing tunnel or abandonment of the tunnel and a re-route of the canal. Other work included improvements to multiple canals within the system.
- Lower Willow Creek Irrigation District - \$200,000. This loan would finance necessary upgrades to the irrigation infrastructure.
- Montana Department of Natural Resources and Conservation – Conservation and Resource Development Division - \$8,000,000. These loans proceeds would be used to construct infrastructure projects or to refinance existing debt, resulting in significant savings to communities in interest costs on existing loans
- St. Mary Milk River Project - \$40,000,000. This loan would be used to meet the local cost share for the St. Mary Diversion rehabilitation project as well as necessary upgrades within the St. Mary Milk River Project.
- Lockwood Irrigation District \$750,000. The project will include the rehabilitation of the siphon, pump stations, and pipe replacement.

Montana Coal Endowment Program

MCEP

Purpose - The Montana Coal Endowment Program (MCEP) is a state-funded grant program created to help local governments fund infrastructure projects, defined by statute as drinking water systems, wastewater treatment, sanitary sewer or storm sewer systems, solid waste disposal and separation systems, and bridges. MCEP was authorized by Montana voters through the passage of Legislative Referendum 110 in June 1992 (Sections 90-6-701, *et seq.*, MCA). Title 90, Chapter 6, Part 7, MCA sets out the basic requirements for MCEP. Administered by the Montana Department of Commerce, the mission of MCEP is to assist local governments in funding infrastructure projects that will:

- create jobs for Montana residents;
- promote economic growth in Montana by helping to finance the necessary infrastructure;
- encourage local public facility improvements;
- create a partnership between the state and local governments to make necessary public projects affordable;
- support long-term, stable economic growth in Montana;
- protect future generations from undue fiscal burdens caused by financing necessary public works;
- coordinate and improve infrastructure financing by federal, state, local government, and private sources; and
- enhance the quality of life and protect the health, safety, and welfare of Montana citizens.

Executive Recommendation

Volume 4 of the Governor's 2025 Biennium Executive Budget contains the department's evaluation of each of the MCEP applications and detailed funding recommendations.

- For the 2025 biennium, 52 applicants are requesting \$31,019,713 million in project grant funds.
- The department recommends two lists of projects for MCEP infrastructure grant funds – one list for 40 eligible infrastructure projects (table **F-9**) and the other for 11 eligible bridge projects (table **F-10**). The tables list each project and the recommended grant award.
- The 11 bridge projects and 40 other infrastructure projects are included in HB 11 with an appropriation of \$30,019,713 in state special revenue.
- The department recommends \$900,000 for matching infrastructure planning grants and \$100,000 for emergency projects during the 2025 biennium, which are included in HB 11.
- The MCEP administration appropriation for \$1,610,277 is in HB 2.

Since the Last Session

As of November 1, 2022:

- 48 grantees were awarded funds from the 67th Legislature in HB 11 and HB 14. HB 632 authorized eligible project funding to replace special revenue interest earnings with American Recovery Plan Act (ARPA) funds. These eligible projects included 41 water, wastewater, combined water and wastewater, and storm drain projects. Seven bridge projects were not eligible for ARPA and were funded through the special revenue interest earnings.
- 38 of the 48 grantees that received MCEP funding from the 67th Legislature in HB 11 or HB 14 (subsequently HB632) have met start up conditions for a total obligation of \$20,578,718.
- The department has awarded 2 emergency grants for a total of \$30,000.
- The department has awarded 62 planning grants for a total of \$900,000.

MCEP Regional Water Program

RW

Purpose

The State of Montana, through the Department of Natural Resources and Conservation (DNRC) provides financial support and state coordination for four regional water systems in Montana. When completed, the Rocky Boys-North Central, Fort Peck-Dry Prairie, Central Montana, and Dry Redwater systems will provide clean drinking water to more than 65 communities in central and northern Montana. Two of the regional water systems benefit from Tribal partnerships, and three are authorized by Congress. Dry Redwater is undergoing a feasibility study by the Department of Interior which would address the project cost, economic feasibility, and customer demands of the more than 22,500 residents.

Executive Recommendation

- Regional Water appropriates the state's share of regional water system construction funding. Grant funding is limited to \$7,000,000 of state revenue for construction projects conducted by the regional authorities.
- There is an appropriation in HB 2 for administration of \$1,500,000 per year.

Since the last session

- In the 2023 Biennium, the Dry Prairie Regional Water Authority completed work on delivery of water to the northeast corner of the system. When the entire regional project is finished, over 3,000 miles of pipeline will deliver drinking water to more than 20 communities and nearly 4,000 farms, ranches and rural homes. The entire system should be complete by December 2025.
- The North Central Regional Water system has completed the Oilmont to Shelby pipeline and is working on the pipeline to carry water from Tiber east to Loma and Havre. The construction completion date is estimated to be July 2023.
- The Central Montana Regional Water system will complete Phase I by delivering water to Harlowton in the summer of 2023. Phase II will bring water to Roundup by September 2024.
- The Dry Redwater Regional Water system is using Sidney as an interim water source to provide water to several subdivisions.

Montana Historic Preservation Grant MHPG

Purpose - The Montana Historic Preservation Grant (MHPG) is a state-funded grant program created to help private and public entities fund the preservation of historic sites, historical societies, and history museums across the state. MHPG was authorized by House Bill 338 during the 66th Legislative Session in 2019 (Sections 22-3-1305, et seq., MCA). Funding for MHPG grants comes from the Historic Preservation Grant Program account established in 17-2-102, MCA and is subject to appropriation by the legislature. As of January 1, 2020, tax collections allocated in 15-68-820(3)(b) and (4)(c) began depositing in the Historic Preservation Grant Program account. The basic requirements for MHPG are in Title 22, Chapter 3, Part 13, MCA. Administered by the Montana Department of Commerce, the mission of MHPG is to assist private and public entities in funding historic preservation projects that will demonstrate the following:

- (a) the degree of economic stimulus or economic activity, including job creation and work creation for Montana contractors and service workers;
- (b) the purpose of the project, including whether it provides features that establish or enhance security, climate control, or fire protection for museums or address infrastructure, maintenance, or building code issues;
- (c) the timing of the project, including access to matching funds, if needed, and approval of permits so that work can be completed without delay;
- (d) the historic or heritage value related to the state of Montana;
- (e) the successful track record or experience of the organization directing the project; and
- (f) the expected ongoing economic benefit to the state as a result of the project completion

Executive Recommendation

Volume 8 of the Governor's 2025 Biennium Executive Budget contains the department's evaluation of each of the MHPG applications and the detailed advisory funding recommendations.

- For the 2025 biennium, 48 applicants are requesting \$14,069,913 million in project grant funds.
- 48 projects are eligible to receive awards, totaling \$14,069,913.
- MHPG contains one list of projects with a recommended funding line of \$8,501,314 million for 29 grants based on the anticipated revenue for the 2025 biennium (table **F-12**). The table lists each of the 48 projects and the recommended grant award.
- The department is requesting one FTE in HB 2 for the administration of the recommended projects.

Cultural and Aesthetic Grant Program

Purpose - The Cultural and Aesthetic (C&A) Grant Program began in the 1979 biennium for protection of works of art in the state capitol and for other cultural and aesthetic projects as provided in 15-35-108, and Title 22, Chapter 2, part 3, MCA. Initially administered by the Montana Historical Society (MHS), the C&A program was transferred to the Montana Arts Council (MAC) in the 1985 biennium and continues to be funded by the interest from a statutory trust that receives coal severance tax revenues. Project applications are submitted to the MAC for review and ranking by the 16-member Cultural and Aesthetic Projects Advisory Committee, half of whom are appointed by the MAC and half by the MHS.

Coal severance tax revenue of 0.63 percent is statutorily allocated to the capitol art protection trust fund for funding of the recommended grants. The recommended grant awards total is \$558,876 for the 2025 biennium.

Executive Recommendation –

- **Volume 7 of the Governor's 2025 biennium Executive Budget** contains the C&A project applications and advisory committee assessment information.
- HB 9 contains the projects recommended by the advisory committee for funding in the amount of \$558,876. Table **F-13** below shows the requested amount and recommended grant amounts.
- Projects are organized into three categories: special projects, operational support, and capital expenditure grants.
- The revenue estimate for cultural trust interest earnings for the 2025 biennium is \$1,051,000.
- Montana Arts Council administration and services are recommended for \$429,428 and appropriated in HB 2.
- Montana Historical Society is appropriated in HB 9 the first \$30,000 for Capitol Complex works of art.
- Language in HB 9 provides a mechanism for spending the funds within the total revenue available.

2465	Yellowstone Art Museum	\$12,000	\$10,000	\$558,876

Long Range IT Program

Purpose – House Bill 10 IT Infrastructure projects, as well as Information technology budget requests are extracted from the executive budget and presented separately in this section to comply with 17-7-123(1), MCA. Each major information technology related decision package in excess of \$500,000 or \$100,000 and 25 percent of the IT base expenditures of a given agency for the biennium is presented in the following.

Information technology funding requests are presented in two bills in the executive budget. House Bill 2 typically includes fund requests for operations and maintenance and may represent an ongoing cost of state government.

New investments in information technology assets are generally appropriated as long-range capital projects in House Bill 10. These projects are investments in state service infrastructure and appropriate to be funded in a long-range program. The consolidation of major IT projects is intended to achieve several goals. First, IT projects are complex and require significant and time-intensive planning, design and management efforts, and by designating the projects as “capital projects,” the appropriation continues until completion of the project as statutorily authorized in 2-17-560, MCA. Second centralized project oversight is expected to enhance project management and foster stronger partnerships between agencies and the state CIO. Finally, having major projects in one piece of legislation is anticipated to provide the legislature with a broad vision of the state IT program and related investments.

Executive Recommendation –

- **Volume 10 of the Governor's 2025 biennium Executive Budget** contains the long range projects with more information on each project.
- HB 10 contains the projects recommended by the executive budget for funding in the amount of \$240,289,406. Table **F-14** below shows the requested amount for the IT projects.

Long Range IT Program

F-14					
Long Range IT Projects					
DEPT	Project Description	LRITP	SSR	FSR	Total
Justice	CARS	\$50,511,000			\$50,511,000
Ag	Commodity Assessment System	\$350,000	\$20,000		\$370,000
Ag	SAFHER Federal System		\$166,667	\$33,333	\$200,000
Ag	Grant Management System		\$40,000	\$20,000	\$60,000
DPHHS	Comprehensive Child Welfare Information System	\$12,537,881		\$12,537,881	\$25,075,762
DPHHS	Montana Child Support Enforcement Automated	\$4,412,940	\$6,304,200	\$20,803,860	\$31,521,000
DPHHS	Electronic Health Records and Billing – State Facility	\$25,000,000	\$2,321,690	\$285,614	\$27,607,304
DPHHS	Montana Healthcare Programs Modularity Project	\$4,940,613		\$44,465,517	\$49,406,130
DPHHS	SNAP Employment and Training/Enterprise Solution	\$1,400,000		\$1,400,000	\$2,800,000
DPHHS	Electronic Benefits Transfer System Replacement	\$1,250,000		\$1,250,000	\$2,500,000
Judicial	Judicial Courtroom Remote Appearance Video Teleconferencing	\$850,000			\$850,000
Judicial	Courthouse Security	\$500,000			\$500,000
DNRC	DNRC Financial Management System	\$758,800	\$596,200		\$1,355,000
DNRC	DNRC Fire Finance Processing System	\$500,000			\$500,000
DNRC	Flathead Reservation Information Technology System	\$700,000			\$700,000
DNRC	TLMS Customer Portal	\$2,000,000			\$2,000,000
DOA - ITSD	Cybersecurity Enhancements	\$21,513,774			\$21,513,774
DOA - ITSD	E-Discovery/Public Information Request Software	\$2,000,000			\$2,000,000
OPD	Wifi update in courthouses	\$350,000			\$350,000
PSC	Software Modernization Project (REDDI)		\$1,469,436		\$1,469,436
Livestock	Animal Health System		\$450,000		\$450,000
Livestock	Snowflake Integration		\$125,000		\$125,000
Livestock	Google AI		\$425,000		\$425,000
Corrections	Offender Management System Replacement	\$18,000,000			\$18,000,000
Total		\$ 147,575,008	\$ 11,918,193	\$ 80,796,205	\$ 240,289,406

Long Range IT Program

F-15				
HB2 IT Budget Requests				
Agency	IT Investment	Funding	FY24	FY24
11040	OLIS Projects (BIEN/OTO)	GENERAL FUND	2,337,900	1,558,600
LSD is requesting one-time-only funding for information technology automation systems and systems upgrade.				
41100	MHP Camera Systems	STATE/OTHER SPECIAL REV. FUNDS	700,000	700,000
This project will replace out of date in car video systems for Montana Highway Patrol Officers. In car video systems are important to enhance police officer safety, liability, provide transparency, improve conviction rates and are used for training purposes. This will impact DOJ IT applications. The estimated cost in implementing this system will be absorbed within existing house bill 2 budget parameters.				
41100	Server Replacement - OTO	GENERAL FUND	2,000,000	-
This request replaces equipment at the MT Fusion Center that is severely outdated infrastructure that has been identified as high risk for failure. The current equipment is beyond manufacturers life cycle. Internal applications at DOJ are impacted that support public safety statewide. Specifically Criminal Justice Information Services data (CJIS) is directly impacted. The cost of operating this system will be absorbed within existing house bill 2 budget parameters.				
41100	FAST Annual Maintenance Costs	GENERAL FUND	2,550,000	2,550,000
This request building in the annual maintenance costs for the fully implemented electronic system utilized by the Motor Vehicle Division in providing Vehicle and Driver serves programs to the citizens of Montana. This request provides for the estimated annual maintenance costs to implementation of the new system that will be ongoing.				
42010	Software Modernization Project (REDDI)	STATE/OTHER SPECIAL REV. FUNDS	170,000	138,000
The REDDI Project will enhance the functionality of all areas of the PSC by streamlining processes, reducing latency, and improving performance. In addition, it will add features to modernize PSC functions. The REDDI Project may utilize OKTA and Splunk, but is otherwise a stand-alone application. Agencies such as the Montana Consumer Counsel may utilize REDDI, but will be doing so from their web browser and not directly from an existing application. The REDDI Project should result in a minor decrease in State resource usage, as storage and hosting responsibilities will be shifted away from SITSD to our third party vendors.				
42010	IT Systems Administrator 2	STATE/OTHER SPECIAL REV. FUNDS	114,164	110,546
An IT Systems Administrator would greatly improve the efficiency of the PSC. The Systems Administrator would focus on the PSC's REDDI Project, both providing support to a vital system and freeing additional IT resources for use where they would be most effective. An additional IT Systems Administrator would interact regularly with SITSD through the Service Desk, as well as the Cascade dashboard. An additional employee would cost an estimated \$114,164 a year, not including initial training and facility expenses				
51020	Seamless System (RST/OTO)	GENERAL FUND	1,500,000	1,500,000
The Seamless System project would unify all campuses under a single Learning Management System, which will allow for a consistent and seamless online training and learning environment, easier transfer and completion, and the ability to deliver more collaborative workforce training programs that will greatly increase the efficiency of the MUS instructional infrastructure. The project would also create a single catalog of workforce training programs and other coursework that will be available to all MUS students and allow them to access opportunities well beyond their home campus, both online and in-person. Students will be able to search and seamlessly enroll in courses and programs, with one click registration and a single bill. The only impact would be to the MUS Enterprise Management System. Implementation of the Seamless System project in the MUS would provide a single, up-to-date, and integrated learning management system across each of the 16 campuses in the MUS, replacing outdated and disparate systems. With this project, the MUS will for the first time have a single integrated platform for creating, delivering, and managing educational courses for all students regardless of campus or location. Ongoing licensing costs are estimated at \$500,000 annually. The MUS estimates an annual savings of \$350,000 with full implementation of the Seamless System Project.				

Long Range IT Program

Agency	IT Investment	Funding	FY24	FY24
58010	CCD METRC Contract Increase (RST)	STATE/OTHER SPECIAL REV. FUNDS	1,125,400	1,625,400
	<p>METRC is the current seed to sales regulatory system used by the department to insure appropriate regulation of the cannabis industry in Montana. Because of a misscommunication among the department, the Department of Public Health and Human Services, and the vendor during the 2021 legislative session when the department assumed the existing METRC contract from DPHHS with the passage of HB701, the department did not build into its existing budget the necessary funding to pay for the existing contract. This request is to provide the appropriate budget going forward to pay for the existing contract not to pay for any enhancements or changes to the system. The department's integrated tax system, GenTax, provides medical card holder information to the METRC system to insure medical care holder information is correct.</p>			
61010	Increase for ITSD Operations	PROPRIETARY FUNDS	7,300,000	6,600,000
	<p>Part of present law. Personnel, operating, and contractual costs to continue to provide IT services to the state.</p>			
61010	Centralize IT Security	PROPRIETARY FUNDS	1,386,747	1,319,953
	<p>Personnel, training and start up costs to support centralizing IT Security under SITSD.</p>			
61010	Increase eGov Operating Expenses	PROPRIETARY FUNDS	610,566	590,273
	<p>Professional services and contractual increases to support the E-Government transaction fund.</p>			
64010	Equipment/IT Upgrades - OTO	GENERAL FUND	1,000,000	-
	<p>This decision package includes appropriation to update and replace equipment within the department's secure facilities. Equipment needs include new ovens; a 60 foot manlift to allow for maintenance on fences, cameras, and towers; a grader, a backhoe, and a mini-excavator to assist with road maintenance and snow removal; replacement freezers; a new generator for the high-side kitchen; forklifts; and a utility vehicle to assist with security patrols and emergency response in off-road areas. IT needs include cameras, additional stations for online hearings, and a new warehouse management system.</p>			
69010	MPATH Operations	FEDERAL SPEC. REV. FUNDS	1,304,030	2,528,901
	<p>This present law adjustment requests \$5,263,783 in total funds over the biennium to maintain existing services in Montana's Program for Automating and Transforming Healthcare (MPATH) in the Technology Services Division. The increase is necessary to fund projected MPATH Customer Care Operations, and Financial Services shortfalls.</p>			
69010	MPATH Operations	GENERAL FUND	495,802	935,050
	<p>This present law adjustment requests \$5,263,783 in total funds over the biennium to maintain existing services in Montana's Program for Automating and Transforming Healthcare (MPATH) in the Technology Services Division. The increase is necessary to fund projected MPATH Customer Care Operations, and Financial Services shortfalls.</p>
